LOGICOR SPRING 89

LOGICOR

15 SPRING ROAD, SMETHWICK B66 1PE

A PRIME URBAN LOGISTICS WAREHOUSE OPPORTUNITY

Positioned immediately off Junction 1 of the M5, Logikor Spring 89 provides a rare opportunity to secure a best-in-class industrial facility targeting logistics, distribution and manufacturing occupiers within one of the UK's most established industrial locations. The site offers 1,250kVA of power capacity and is designed for energy-intensive distribution.

Designed to the highest modern specification, the development combines exceptional connectivity with strong sustainability credentials, creating an efficient working environment capable of supporting national distribution, regional logistics and advanced manufacturing operations.

With immediate access to Birmingham, the Black Country and the wider motorway network, occupiers benefit from outstanding labour availability, excellent customer reach and fast connections to key freight infrastructure.

BUILT FOR TOMORROW

SUSTAINABILITY BUILT IN

Logicor Spring 89 has been designed to reduce operational costs while supporting occupiers' ESG ambitions. Targeting EPC A+ and BREEAM 'Outstanding', the building incorporates rooftop solar PV, LED lighting, EV charging infrastructure, enhanced landscaping and biodiversity measures to create a highly efficient and future-focused workplace.

The PV system is designed to generate 13.32 kWh/m², equating to an annual saving of 119,880 kWh—or approximately £35,964 at a £0.30/kWh tariff—based on a GIA of circa 9,000 m².

LABOUR CATCHMENT

Spring Road benefits from access to one of the UK's largest and most established labour markets. A workforce with expertise across logistics, manufacturing, and distribution provides occupiers with a strong recruitment base.

POPULATION

Serving a population of 2.1 million, including a working-age population of 1.34 million, with 1.04 million economically active residents. Providing a strong foundation for long-term business growth.

EMPLOYMENT

The regional economy supports 1.12 million jobs, including over 78,000 in manufacturing and 49,000 in transport & storage. This broad employment base reflects the area's longstanding industrial and logistics strengths.

AT THE HEART OF THE UK'S MANUFACTURING AND LOGISTICS ECONOMY

UNIVERSITIES

Approximately 98,000 students study across 5 universities. Aston's MSc Supply Chain Management is accredited by CILT, CIPS and CMI, while BCU students work on briefs linked to Jaguar Land Rover, Siemens & Rolls-Royce SMR.

TECHNICAL COLLEGES

Sandwell College provides over 100 technical and vocational courses alongside apprenticeships and T Levels. City of Wolverhampton College is recognised as a Technical Excellence College for Advanced Manufacturing (AMTEC).

OCCUPIER DEMAND

The West Midlands remains one of the UK's most active logistics markets, with occupier demand driving a 132% year-on-year increase in take-up to 3.6 million sq ft in H1 2026, while vacancy has tightened to just 6.3%

The map displays the Birmingham region in the West Midlands of England. The city center is enclosed in a dashed black rectangle, with a large, stylized 'B' logo centered within it. Major roads are depicted as thick grey lines, with motorways (M5, M6) shown in a darker shade. Key locations labeled include Wednesbury to the north, Oldbury and Smethwick to the west, and Handsworth and Edgbaston to the east. The River Sever is visible flowing through the city. The map is titled 'Birmingham' in a large, bold, black font at the bottom center.
