INTRODUCTION

Welcome to Govan Community Project's Strategic Plan for 2018 - 2021. This plan sets out our community's vision for the coming years: what we want to achieve, our reasons and how we are going to do it together. This is the first time that Govan Community Project has had a strategic plan and it is coming at a time of significant change. We hope that setting out our collective vision will allow us to ensure that we are meeting the needs of our community members. This plan was co-produced with community members. This plan was co-produced with community members, staff, volunteers and our board of directors. We held an event with over 50 community members to identify key priorities and challenges for the organisation. Thereafter we met weekly over a period of 15 sessions to refine and add to the feedback we had already received.

We would like to thank all of our community members, a special thanks to: Kehinde-Meine James, Sara Al-Rubaya, Ruth Lamb, Abdulkadir Awel, Giscard Kuimi, Sukai Secka, Mohammed Saleh, Toyosi Ogunbowale, Mengistu Rago Gurm, Snaa Al-shemlwi and family and Gladys Emofonmwan.

BACKGROUND

Govan Community Project (GCP) used to be called Govan and Craigton Integration Network, which was originally a response of community and church members to the needs of newly arrived asylum seekers in Glasgow. Since then, GCP has developed into a registered Scottish Charity running a variety of different activities and VoiceOver, our own social enterprise that provides an interpreting and translation service.

In 2016 we established that our purpose is to achieve social justice in Govan and Craigton by building a strong community based on equality, mutual respect, support and integration. We are an organisation based in Govan that supports diverse communities in this area and also supports asylum seekers and refugees throughout Glasgow. We contribute towards policy and best practice in Scotland to improve social justice.

We work towards achieving our purpose in a number of ways. Our community flat is used as a valuable resource for that is free for community groups and hosts our ESOL classes, our women's group, our men's group and our homework club. We also run advice and advocacy sessions, distribute food and undertake participatory action research with community members. VoiceOver provides affordable, value for money interpreting and translation services to ensure quality interpreting is accessible.

Given the current political climate and attitudes towards asylum seekers, refugees, and migrants more generally, and with the highest rate of global displacements on record¹, this is one of the most challenging times for our community members in modern history.

That said we are fortunate to be working within Scotland, which has a national policy of welcoming migrants, including refugees. This is evidenced in the recently revised 'New Scots' Integration strategy, an important framework which our community members contributed towards, that aims to welcome and unlock the assets that refugees bring with them to their homes across Scotland³.

We are grateful to all of our funders who enable our vital work to continue and we truly value our relationships with a wide range of organisations that make our joint efforts impactful.

In the coming years we will continue working closely with our community members, funders and partner organisations to achieve our goals.

¹ The most recent publication of global trends by the UNHCR, the United Refugee Agency, recorded an unprecedented 65.6 million people around the world who had been forced from home. Among them were nearly 22.5 million refugees, over half of whom are under the age of 18. For more information, <http://www.unhcr.org.uk/figures-at-a-glance.html>

CORE VALUES

Our core values describe how we behave and treat each other.
