### Introduction

**People are at the heart of who we are and what we do.** Day-by-day, person-to-person, we tailor what we offer to what people need. We're here to provide consistent, friendly and informed support so that people can explore options and take 'the next step' towards a positive future. We welcome people with a wide range of skills and experiences to our team – including those who have lived through homelessness. To make a difference we need to work flexibly, with everyday-leadership, humour and a 'can do' spirit. We want to **make it easy, make it right, and make it happen** – not only for the people we support, but also for each other. Our #OneTeam ethos is core to who we are, and it means caring for and supporting each other regardless of our role, service or location. This is how we roll. We want people who share these values to join us and become a part of the Simon Community Scotland family.

### Job purpose

We support people with exceptional needs and we need exceptional people to help us. At Simon Community Scotland, we are wholly focused on supporting people to be safe, to get off the streets and into accommodation where we continue to provide support to help them stay safe. Our values matter to us and we are looking for people who share those, who are committed to making a positive difference, and who are skilled in relating to people and working in a person-centred way to support resolution and recovery from homelessness.

\*These **core digital responsibilities** are part of every role at the Simon Community.

- **Digital inclusion is embedded as part of our service delivery.** Some of the people we support have little experience and knowledge of the internet and using email. If you are in a frontline role, you will be expected to help them connect, understand and be safe, and promote digital inclusion for people unable to access the benefits of the online world. As a team member, you are also expected to be an 'active learner' yourself and support colleagues' digital learning (e.g. sharing tips or advice on using our systems), so that we all get better at using digital tools.
- **Our digital platform is a key part of our working environment.** Our operating platform is **GSuite**, a cloud based system that will allow you to share files, collaborate, communicate, meet and access the organisation remotely. We will provide you with a Chromebook and android smartphone to do this. Our **Management Information System (MIS)** is Netsuite. You will be trained in using Netsuite and its application. We have a **team intranet** – the IMPACT Platform – for updates, resources and 'all things Simon'.
- **Sharing our work publically helps to change society's misconceptions about homelessness and generate support.** We use various forms of social media to inform, communicate, gather support and share what we do including websites, youtube, Twitter, Facebook and Instagram. We expect everyone to share what we do through various media outlets – e.g. helping to create blogs, videos, social media posts, information pieces and news items. This helps people understand what we do better understand homelessness. This helps grow public empathy for people we support. We also get a huge amount of support from people and organisations so we want to share what we do as a result of that support.
