About Citizens Advice Scotland

The Citizens Advice network in Scotland is the largest independent advice service in the country. Citizens Advice Scotland is a charity within this network – we act as a national organisation supporting and representing the service as a whole and the interests of citizens.

At the heart of the network there are 59 individual citizens advice bureau organisations across Scotland, all operating as independent charities in their own right, and generally focusing on providing support directly to clients. Each of these organisations is a member of Citizens Advice Scotland. Also providing significant added value are the national elements of the service run out of Citizens Advice Scotland, such as the Extra Help Unit.

We believe that every citizen should have access to free, impartial and confidential advice that helps them make informed decisions, whenever they need it and however they choose to access it. Whether that's face-to-face, over the phone or online, people know that wherever they see the familiar blue and yellow of our brand, they are guaranteed the same high quality of free, impartial and confidential advice.

Citizens Advice Scotland is committed to promoting diversity and inclusion. We offer a range of family friendly, inclusive employment policies and flexible working arrangements to support all our staff. We are also committed to equality of opportunity for all and applications from individuals are encouraged regardless of age, disability, sex, gender reassignment, sexual orientation, pregnancy and maternity, race, religion or belief and marriage and civil partnerships.

About the job

Citizens Advice Scotland runs a series of national specialist services as projects which require centralised project co-ordination and support. The Project Officer will work alongside the rest of the allocated project team, ensuring successful delivery and development where appropriate. At Level 1 the Project Officer will have a lower level of responsibility for allocated projects than Level 2, either due to the complexity of the project or the accountability of the work being undertaken.

As well as providing project coordination and support, the role will be responsible for the collation of management information and for the coordination and engagement with key stakeholders as well as assist with the drafting of project reports. This will be used to determine how the project or service is performing and inform recommendations and decisions as to future service development and changes affecting advice delivery.

This role will support a number of projects and therefore a dynamic and flexible individual who can multi task is required. The national projects are delivered by the bureau network, providing the advice and support people need. The Project Officer must have the ability to communicate clearly and to proactively gather information from a wide stakeholder and participation base ensuring deadlines are met.
