Maternity Cover Post - Additional Information

Recovery Advocacy Project

Kintyre

1 Year with possibility to extend.

We are seeking an enthusiastic, highly motivated individual to join our friendly advocacy team.

This post is a chance to step into an existing well developed project, with opportunities to further improve the aims and objectives of the project.

If you are passionate about people, about ensuring people are empowered, treated with fairness and dignity then advocacy could be the role for you. This post will focus on assisting people impacted by problem substance use and alcohol dependency issues. You will support people with a range of issues, including access to Health and Social Care Services, support to meet with the GP, Housing and Welfare services. You will be connecting and signposting individuals and enabling them to feel empowered and respected, where often individuals can find accessing the recovery community challenging due to the stigma and shame.

You will be working across the Kintyre peninsula, supporting people on the mainland, in the town of Campbeltown, the villages across the area and the Isle of Gigha, Jura and Islay.

You will have access to an office in Campbeltown, and the ability to home work between client visits.

You will complete an induction programme with guidance and support, have access to learning & Development opportunities, support and supervision and attend team meetings.

Please apply using the application form on our website.

For informal enquiries please phone 01546606056 and ask for Charlie in reference to the Kintyre Recovery Advocate post or email admin@laas.org.uk
