Our College

City of Glasgow College is Scotland's largest professional and technological education and skills college – and the third largest in the UK. The College traces its roots back to 1850 and our core purpose is to “Let Learning Flourish”. We pursue this through the City Way of inspiration, excellence and innovation with our staff, our approach to learning and teaching and in collaboration with our extensive network of industry and community partners.

The College's multi award-winning, state-of-the-art, twin-site campus in the heart of Glasgow offers outstanding resources and opportunities for students to gain essential skills and nationally and internationally recognised qualifications – from entry-level to degree-level study, as well as chartered professional qualifications.

Since our highly successful multi-college merger in 2010, the College has thrived by working in a symbiotic partnership with employers, business, industry and education partners to build a

curriculum of over 1,000 flexible-study courses across 4 faculties. In that time, the College has prepared more than 100,000 graduates of more than 130 different nationalities for the world of work.

Our commitment to excellence is recognised on an international level. We are proud to be a top-tier ranked WorldSkills institution and the first educational institution in the world to secure a seven-diamond accreditation from the prestigious European Framework for Quality Management.

The College's reach now extends across 26 countries and 6 continents. Each year some 4,000 international students study with us. Such is our pioneering approach that 50 government delegations have beat a path to our door to see for themselves a new renaissance in technological education, STEM, specialist education and higher skills.

“The College is a beacon of educational excellence, innovation and inspiration. Our commitment to “Let Learning Flourish” is not just a tagline or a motto but is, instead, a living, guiding purpose that shapes our work each day. It is within the walls of our state-of-the-art campuses that dreams take shape, talents are nurtured and futures are forged.”

Alisdair Barron MBE, Chair of the Board

Our Sector

Scotland's 24 colleges deliver 71 million hours of education and training to more than 235,000 students each year. We provide a vital pipeline of future talent which delivers a skilled workforce to meet the needs of industry and the economy.

Across the country, from our rural highlands and islands to our towns and cities, Scotland's colleges are anchors in their local communities. In Glasgow and across Scotland, colleges provide important hubs for people locally, help to mitigate poverty and provide life-changing opportunities.

Colleges also work across our regions to support businesses, from SMEs to FTSE-100 listed companies, and make a significant contribution to the Scottish economy. Recent research conducted by the [Fraser of Allander Institute](#) shows that college graduates will boost Scotland's economy by £52 billion over their working lives

Colleges are essential to Scotland's future, producing the skilled graduates that so many industries rely on. We are key to training and upskilling the future workforce in emerging

industries and key growth sectors, such as renewable energy, creative industries, AI, tourism and digital health and care. Colleges are great places to learn, no matter what age or stage of life people are in.

Glasgow is served by 3 colleges: [City of Glasgow College](#), [Glasgow Clyde College](#) and [Glasgow Kelvin College](#). Each of Glasgow's colleges offers a wide range of courses and qualifications at both further and higher education levels. More than 50,000 students from Glasgow, across Scotland and around the world choose to study with us each year.

Glasgow's colleges represent more than one-fifth of all the education and training delivered by Scotland's colleges. Together, we widen access, support employers, help build a modern workforce and contribute to the regional and national economy.

When colleges thrive, Scotland thrives. Please read Colleges Scotland's [Key Facts 2023](#) publication to find out more about the work of colleges.

"Colleges across Scotland are now remarkably agile tertiary education and training institutions... We think they are a Scottish treasure, whose diversity is now characterised by collaboration rather than competition."

"Our colleges prioritise skills mastery, underpinned by the technological and professional education of the individual student. College pedagogy emphasises the 'doing', instilling competence and proficiency in our learners."

"What motivates many of our staff is that their colleges are the linchpins for developing the social capital for those of all ability and all ages to engage in purposeful, practical, and productive learning - for the many, not the few."

[Audrey Cumberford & Paul Little - The Cumberford-Little Report](#)

Our Board

Role

Our Board of Management, as the College's governing body, is responsible for:

- Leading the College and setting its strategic direction and values
- Ensuring effective management and financial controls to support the student experience within a framework of public accountability and transparency
- Delivering high-quality learning and outcomes

Membership

When all positions on our Board are filled, we are a Board of 20 people. Board members arrive at the Board in different ways, through appointment and nomination processes, but are all equal. Our Board values the diversity of thought, skills and experience members bring.

The Chair is appointed by the Glasgow Colleges' Regional Board (GCRB) to lead the Board. The Principal, appointed to lead and manage the College, is also a member. Our students, staff and trade unions nominate 2 members each who bring their expertise and knowledge of the College's day-to-day workings. The remaining 12 members are people independent of the College who bring a range of professional skills and, experience in a variety of sectors.

Committees

Committees are essential to the operation of the Board and the governance of the College. A significant amount of our Board's work is undertaken at a committee level, with members usually serving on 2 each. The Board has 6 committees:

- Audit & Assurance Committee
- Conveners' Committee
- Development Committee
- Finance Committee
- Learning, Teaching & Student Experience Committee
- People & Culture Committee

Meetings

The Board and its committees meet throughout the academic year. Meetings of the Board are held at least quarterly and committees meet at least 3 times annually. Board and committee meetings are scheduled in the late afternoon to early evening and last approximately 2 hours. The Board has a hybrid approach to meetings, with the option of attending on campus and via Microsoft Teams being available to members. Board papers, minutes and reports are regularly published on the College's [website](#).

Strategy

The task of the Board is to set the College's strategic direction, oversee progress against the plan and ensure that its objectives are delivered. Members do this at regular Board and committee meetings, or at planning days, by discussing reports, asking questions, considering challenges and solutions, and offering constructive challenge.

The College's [Strategic Plan 2021-30](#), set by the Board and refreshed in light of the Covid-19 pandemic, outlines our commitment to Let Learning Flourish through the inspiration, excellence and innovation of our leading teaching methods and world-class facilities.

By delivering on our strategic priorities, the College will facilitate opportunities for our students, support industry and communities and, in so doing, affect positive change in people's lives in and beyond the city whose name we are proud to bear.

Support, Training and Development

As a member of the Board, you will receive secretariat support and governance advice from the Associate Director of Governance & Risk and the PA to the Board of Management.

All members receive an induction upon joining the Board to support them in their new role. Individual and group training and development opportunities are facilitated throughout the year. The Chair also undertakes one-to-one

annual reviews with members to discuss their contribution to the Board and identify training and development needs.

The College Development Network's Governance Development Programme provides Board members with access to key training courses and resources that they need to fulfil their roles and responsibilities. CDN provide a mix of online courses, self-directed learning modules and workshops throughout the year, which complement the sessions facilitated at the College.

The Board itself undertakes an annual self-evaluation of its effectiveness and an external effectiveness review every 3-5 years. The Board Development Plan also supports continuous improvement.

Regional Governance

In 2014, the Glasgow Colleges' Regional Board (GCRB) was established. All of Glasgow's colleges, each with their own Board of Management, are assigned to the GCRB. The GCRB is responsible for:

- Ensuring that college provision across the Glasgow region is coherent and aligned to regional strategy, reflecting the needs of the regional economy and communities
- The allocation of funding to Colleges within the region to enable the delivery of the regional strategy and priorities
- Monitoring of college performance against the Regional Outcome Agreement

Our Roles

Non-Executive Members

The College is seeking to fill 3 non-executive member vacancies on our Board in this recruitment round. The Board is delighted to invite applications from people with a belief in the value of college education and a commitment to widening access, lifelong learning and the student experience.

Non-executive members are independent of the College and are a public appointment made in line with ministerial guidance and approved by the Glasgow Colleges' Regional Board (GCRB). This ensures that our recruitment processes are open, fair and transparent. The Board member post description is enclosed in Appendix 1.

Skills and Experience

Non-executive members bring a range of professional skills and, experience in a variety of sectors, to the Board. The full Board member person specification is outlined in Appendix 2 and eligibility criteria for appointment is enclosed in Appendix 3.

The Board values the wide variety of skills and experience that members bring. The different perspectives each member brings to discussion and decision-making is key to the Board continuing to operate effectively. We know that it is unlikely that anyone joining the Board will possess all the skills, knowledge and experience necessary to fully carry out the role from the start of their appointment. We will make sure that all new members will receive appropriate support and training, as detailed in the previous section of this pack.

Previous experience in the college sector is not essential for this role. However, applicants should have an interest in education and be enthusiastic about using their expertise to contribute to the College's mission to Let Learning Flourish. Applicants should also share the College's values and be able to demonstrate their commitment to the Nine Principles of Public Life, as shown in Appendix 4, in both their application and interview.

Valuing Diversity

The College is committed to ensuring it represents the diversity of the city and region the College serves. The Board, therefore, encourages applications from groups currently under-represented on the boards of Scotland's public bodies, including women, disabled people, those of different cultural and social backgrounds and people under the age of 50.

Term of Office

The length of a member's first term of office will be for a period of up to 4 years. Members may be reappointed to serve a second term of up to 4 years, subject to their performance and the requirements of the Board at that time and conditional upon final approval by the GCRB.

Time Commitment

By the nature of a non-executive member role, the time commitment will vary throughout the academic year. To fulfil the duties and responsibilities of their role and contribute to the core business of the Board, members will be expected to commit to at least 10 working days throughout the year. This estimate includes preparation for, travel to and attendance at scheduled Board and committee meetings, as well as training and development activities.

Board members will also be encouraged to attend internal and external events in their role, such as graduation ceremonies.

Remuneration

Board members do not receive remuneration for their roles. Reasonable travel and subsistence expenses incurred as a result of carrying out the duties of the appointment will be reimbursed.

All members receive an induction upon joining the Board to support them in their new role. Individual and group training and development

Chair of the Board

The recruitment and appointment process for a new Chair of the Board is being undertaken by the GCRB. The closing date for applications is Friday 26 April 2024. Please see [here](#) for full information.

“I joined the Board early in my own professional career and served for more than 12 years. I received a warm welcome to the Board and always felt supported by staff and members. Working together with others to the benefit of the College is immensely rewarding – and it is an opportunity to grow and develop yourself too in many different ways.”

Lesley Woolfries, Former Vice Chair and Non-Executive Board Member

“As a student representative and Board member, I have seen the direct impact of the Board's decisions on the student experience and learning outcomes of students at the College. Support from staff and fellow Board members is critical to creating a collaborative environment that contributes to supporting the success and growth of our student body.”

Leo Subido, Student Board Member

“Undoubtedly, it has been an honour and a privilege to serve the College and our legacy institutions for nearly 20 years. The College is a first choice for thousands of students, and offers a second chance for many, each and every year. This is remarkable Board that is ambitious for the College and our students. It has been immensely rewarding to work with countless people all committed to providing an excellent, transformative educational experience for our students and supporting employers. City stands as a testament to the power of education in shaping lives, offering opportunity and opening doors.”
