

Our buildings and space!

## Calling all woodworking enthusiasts!

An opportunity has arisen to join our team at Tiphereth's wood workshops, **The Pentland Group**.

We specialise in the design and creation of wooden furniture pieces, domestic objects and artefacts of all descriptions! We work across two workshop sites using primarily Scottish hardwoods in the main workshop and locally-sourced timber for our secondary, green woodworking building. We mill wood to size and form on-site, and are looking to increase our self-sufficiency in the materials we use in partnership with our Quarry Group.

We are currently a team of six, working both part and full-time across the week, Monday to Friday.

**The post is available on either a full or part-time basis. The part-time offering is fixed at a minimum of three days, comprising Monday, Tuesday and Wednesday.**

**£24,578.48 rising annually to £26,478.01  
pro rata for part time position**

As part of Tiphereth's community, we work alongside other specialist workshops to provide meaningful work for adults with learning disabilities. We strive to create things that are of quality, things that we can be collectively proud of and objects with high aesthetic value.

Every effort is made to provide a professional environment with high quality tools and machinery, where the creativity of both co-workers and our members can flourish.

We are looking for an individual who has experience in woodwork and can lead individuals and small groups through the creative process. An engagement with, and knowledge of, wood as a material is desired!
