### Job Purpose

Our people are central to our success in delivering services for older people in Scotland. We pride ourselves on having a positive working environment and culture.

We know that growing older doesn't come with a manual. Later life can bring opportunities and challenges, and people may need to know about rights, organisations and services which are often unfamiliar. That's why we provide free information and advice to support older people on a diverse range of topics.

Living our values, you will help create better outcomes for older people by empowering, enabling and supporting them to access their rights and entitlements. Through the provision of advice, form filling and low-level advocacy you will support older people who cannot take the next steps themselves due to the barriers they experience in day-to-day life.
