

Guidance for completing your application

Thank you for your interest in this role.

The most important part of your application is the person specification. This is your opportunity to show how your skills, experience and knowledge match the role.

Please make sure you address each criterion. For each point, clearly explain how you meet it, using examples where possible. This will help us understand your experience and how it relates to the role.

We anonymise applications as part of our recruitment process, so please focus on your skills and experience rather than personal details.

You do not need to meet every single criterion to apply. If you meet most of the essential criteria and feel this role is a good fit for you, we would encourage you to apply.

If you have any questions about the role or the application process, or need any adjustments, please contact recruitment@mindroom.org
