### What investment services and advice can you provide me?

**Portfolio Management Services:** Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. **Financial planning Services:** We provide financial planning services. Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans.

**Monitoring:** Individual Portfolio Management Services accounts are continually monitored, and these accounts are reviewed at least quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment. Ira Fateman reviews all accounts.

**Limitations:** Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. Clients will have the opportunity to place reasonable restrictions on the types of investments which will be made on the client's behalf.

**Additional Information:** more detailed information about services is available on our Form ADV, Part 2A Brochure. **Questions to ask advisor?** “Given my financial situation, should I choose an investment advisory service?
