

SOLAR ENERGY SERVICES

JOIN THE SMART CITY REVOLUTION

SOLAR PROVIDES SOLUTIONS

Eliminate the high costs of going green, reduce upgrade and remodeling costs, and cut your monthly expenses through EOS solar energy services. How? By incorporating low-to-no cost solar offerings to your existing building.

Solar incentive programs are on the rise with increased support from federal and state governments and utility providers.

- Save money on remodels and upgrades
- Reduce monthly expenses with renewable energy
- Realize tax savings year over year

THE FUTURE IS BRIGHT

Our family of companies is built on the foundation that sustainable energy is the future. We are your one-stop shop for all of your renewable and green energy projects.

GO GREEN, WITH GREEN!

With EOS, companies can add green energy solutions, buy green energy through the grid, and leverage our solutions to manage your entire energy solution. Our product suite is affordable, scalable, and easily deployed.

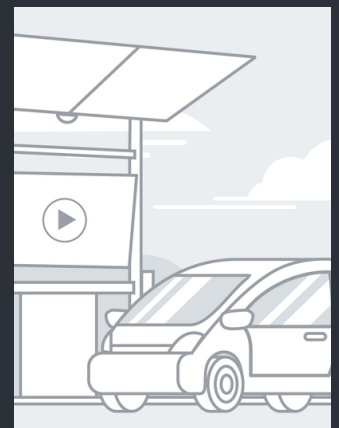

- Energy services (ESA)
- Microgrid solutions
- Community solar
- Enhanced customer engagement technology

THE POWER OF THE SUN

Solar power is trending up and so are incentive programs to support it.

Including:

- Property tax breaks
- Tariffs from government and utility providers
- Income tax credits
- Save with on-site EV chargers
- Solar storage
