

SMART SECURITY

JOIN THE SMART CITY REVOLUTION

INTELLIGENT SECURITY

Keep your business and communities safer with EOS Linx. EOS AI-based security can be customized to your company's unique needs and includes 24/7 monitoring and remote alerting. Through our partnership with VSBLTY, the EOS platform collects data and analyzes behavior throughout the entire process, continuously learning and enhancing proactive measures:

- Identify threats in seconds
- Prevent incidents with proactive analysis
- Create a targeted response

SECURE CONNECTIONS

EOS is equipped with the highest quality equipment to ensure accuracy, privacy, and convenience. EOS is scalable, easily deployed and can be fully integrated into your existing security system.

SMART CITIES ARE SAFER CITIES

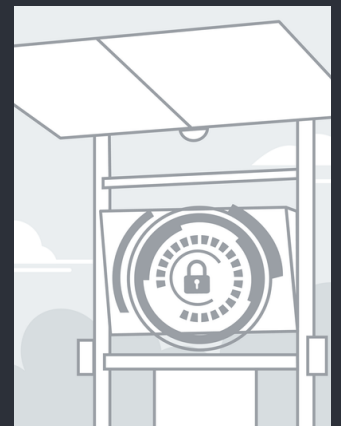

EOS state-of-the-art system collects data and analyzes behavior, including:

- Facial recognition
- Motion sensors
- Weapons detection
- Thermal tracking (COVID)

DETECT AND DETER

AI-based vision analytics, improves the efficiency of your existing security team. EOS Linx provides more information in less time.

- 24/7 surveillance
- Remote monitoring and alerts
- Establishes behavior pattern recognition
- Zone controlled system
- User determined alerting thresholds
- Avoids human error
