ALBUM EPOCA[®]

MADE IN ITALY

The Album Epoca brand is owned by PhotoSì S.p.A., a professional photographic lab that has been operating since 1973.

We've brought new solutions to professional photographers worldwide, underscored by our desire to stay connected every day with our most important audience: you.

Excellence: a value we share with you.

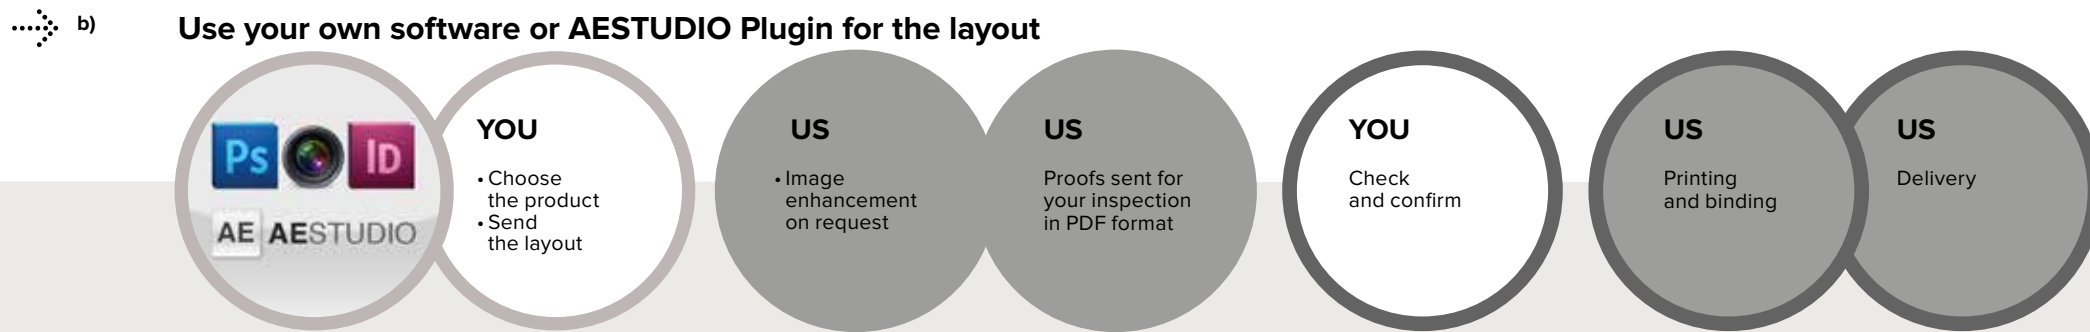

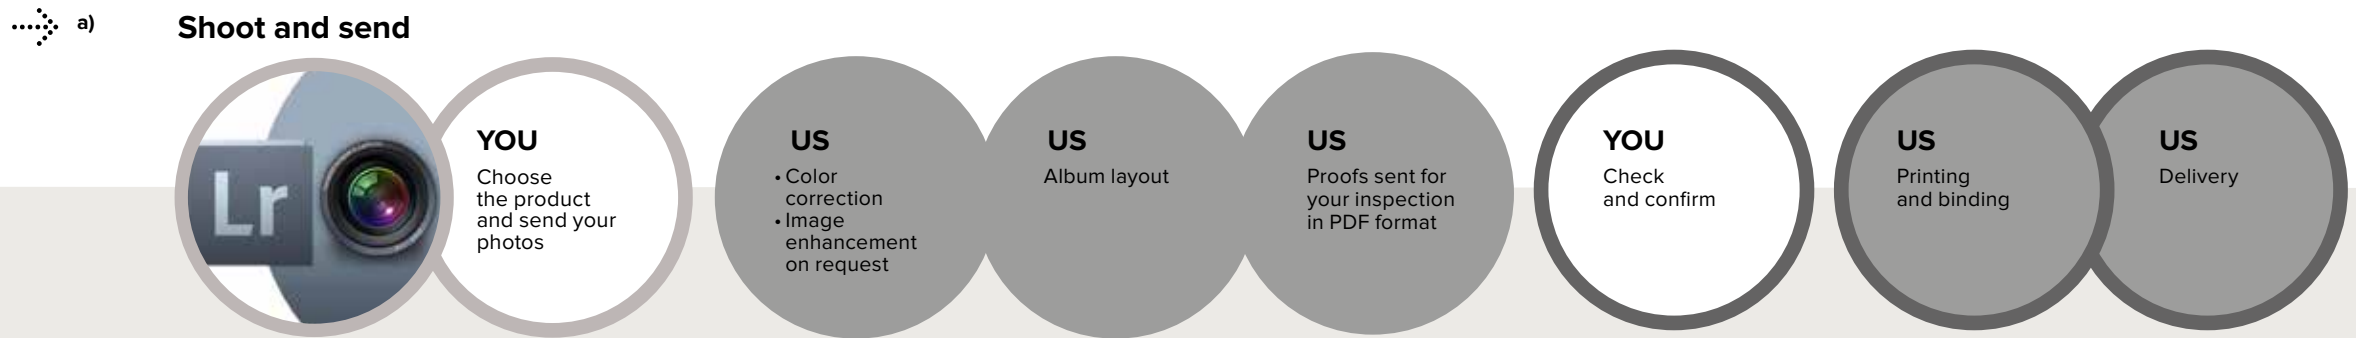

We have a lot in common: specifically, the desire to offer customers the very best. Like you, we put a lot of energy, care, attention and creativity into achieving this. In 2001, we invented and patented an album with continuous page binding. At the same time, we developed page layout software that offers maximum flexibility. Since then, our investment in research and development has increased annually in an effort to find new solutions for professionals like you. From graphic design to customer service... from marketing choices to craftsmanship and attention to detail... we've worked hard to achieve the levels of quality and innovation that have made Album Epoca famous worldwide. Unsurprisingly, over 15,000 professional photographers have connected with our desire for excellence; every day, more than 150 people turn the dream of creating unique products to celebrate extraordinary moments into a reality by ordering albums from us.

As easy as a wish.

Click, choose, order: Album Epoca makes it so easy. Ordering on the web means you save time and can always follow the album production process. You can send orders to the lab using one of the three easy options a, b or c shown in the diagram.

We give you the same care we give our products.

We always answer. In any language.

We know how important it is to be there when you need us, even just to answer a question or give some advice. That's why our employees speak many languages fluently. Our expert multilingual personnel are just one aspect of our excellent customer service. We also deliver to every corner of the globe.

A website dedicated to you and your business.

With albumepoca.com you can choose the product you want, send orders, track production and receive promotional offers, discounts and product specifications in real time. You'll also be able to access technical support directly online.

Satisfaction or your money back.

For us, quality is an absolute. That's why every Album Epoca is built to last. We offer a 100% satisfaction guarantee on everything we make. If our work does not match your order, we'll redo it completely at no extra cost.

A savvy marketing partner.

Album Epoca helps you develop your business successfully by offering key marketing tools. We provide **Sample Studio Albums** featuring your photos to show to the bride and groom so they can see the Album Epoca concept and the quality we provide. We also supply mini-books with images of Album Epoca covers so they can choose the cover they prefer.

So perfect you'll want to put your name on it.

Every Album Epoca reflects the creativity of the photographer who took the photos and the person who did the layout. For this reason, we've designed a personalized plaque that can carry both your name and ours.

Your Album Epoca.

Our job is to help you perfect yours.
It's a process that always takes into account
your indications, suggestions and personal taste.

Before

After

The final touch? Photo retouching.

An exclusive service we offer is photo retouching, designed to eliminate details such as skin blemishes or other defects. We also focus on strong color dominants (with selection feature) and contrast masking to highlight sections of the photo.

Before

After

We aim for perfection from every point of view. Especially yours.

We perform color correction on every single photo, balancing light and contrast to obtain chromatically perfect images. Complexions and shadows are then meticulously corrected manually to the highest standard.

Techniques designed to make sure your photos last.

Our goal is to make sure your photos remain unaltered over time. For example, photo scoring is performed using unique systems and tools created and developed by Album Epoca. This special process puts the perfect amount of pressure on the photo without damaging the protective film or expelling the emulsion. The result? No unpleasant 'pinking effect' on the fold of the page.

Perfection? It lies in our attention to detail.

Our search for perfection is never-ending. Not to boast, but a reminder of our technological leadership. In 2001, our passion for product perfection led us to invent and patent a continuous page binding system that removes the bothersome interruption normally found between the right and left-hand pages. This technology has since become a global standard.

The latest technology married to meticulous craftsmanship.

The best results? We achieve them by combining the latest technology with the craftsman quality that only the hand of man can guarantee. That is why every Album Epoca is handmade, with particular care and attention dedicated to every detail.

We guarantee strength and durability.

Another system invented by Album Epoca is heat binding, a special assembly method carried out manually by inserting interleaving tissue paper between sheets that are then put in an oven. By not using vinyl glues, the result is a sturdy page without the unpleasant 'wave' effect. Heat binding produces a book that is not only more appealing to touch and look at, but longer lasting, too.

Prefer a lighter page? We're flexible.

To give you even more choice, we offer in the EventBook range a new technology that provides a flexible page binding. This technology bonds just the photographic paper alone, without the insertion of interleaving tissue paper between the sheets. The result is a lighter effect without page warping.

The best photographic and digital printing solutions.

The search for excellence necessarily focuses on the use of and search for the best printing support materials. For this reason, we offer only the best photographic and digital printing solutions.

Photographic printing:

- **Matte**
- **Metallic**

Digital printing:

- **Matte-coated**
- **Matte-coated with UV varnish**
- **HD Photo paper (only on EventBook)**

A cover paints a picture worth more than a thousand words.

Album Epoca offers endless possibilities to suit the tastes of those who will own it forever - down to the smallest details.

Continuous cover

Created in a single combination of materials to give a more balanced effect and uninterrupted impact.

Composition cover

The combination of three parts - front, spine and back - created using the same or different materials.

'Composition only on the frontcover'.
Spine and back in the same material.

'Composition only on the back cover'.
Spine and front in the same material.

Because first impressions count.

Dry debossing makes it possible to print a unique decoration on the cover leather that will last forever. Just like the emotions reflected in the unique album.

'Greek fret' print

A geometric finish that frames the cover, affording it refined elegance.

'Corners' print

A different way to frame the cover, offering a classic touch.

'Seal' print

Almost like a coat of arms, a distinctive sign of taste and style.

The details that make an album great.

What makes an album great has nothing to do with its size. On the contrary, it has to do with the little touches and attention to detail. So that it reflects who owns it, from every point of view.

Gold, silver or steel-grey gilding

To enhance and highlight its elegance, the album pages are embellished with gold, silver or steel-grey gilding on the edges.

Cover photograph

Typical of most magazines, the 'stars' belong on the cover. Album Epoca offers various options for the cover photograph:

- **laminated**
- **laminated onto Plexiglas®**
- **laminated onto Plexiglas® with steel frame.**

Initially? Personalization.

Like any self-respecting fashion accessory, Album Epoca also carries a 'label', bearing the names or initials of its proud owners forever.

Metal initials

Simpler yet just as effective, metal initials give a very particular imprint; an option available for numerous cover models. Font: *Amazone*

Engraved names

The names of the couple and eventually the date of the event are engraved on the cover. Font: Futura

Engraved names on metal bar

The names of the couple and eventually the date of the event are engraved on the bar embedded on the cover. Font: Futura

Engraved metal band

The full names of the bride and groom can be laser engraved on the metal band. Font: *Amazone*

Debossing

The names of the couple and eventually the date of the event are hot debossed on the leather cover. Font: Times

Engraved names on metal plaque

The names of the couple and eventually the date of the event are engraved on the square metal plaque embedded on the cover. Font: Futura

Our Wedding Concept

Each single Album Epoca model is available in all versions as a Wedding Concept: coordinated design and style for all the attendees of an unforgettable event.

With an Album Epoca - a wedding album with continuous page binding available in various formats and different sizes. Printed on either 'matte' or 'metallic' photographic paper, each album also comes with a satin ribbon bookmark.

WeddingAlbum

The FamilyAlbum, for parents and relatives of the bride and groom, printed on matte photographic paper and available with traditional continuous page heat binding or flexible page binding.

FamilyAlbum

The Friends Book - a photo book for guests and friends. It is printed on gloss paper, bound in paperback and offers a personalized, soft laminated cover. The Friends Book is available in various formats.

FriendsBook

The Best Friends Book - a photo book for the best man, bridesmaids and in general, all those who deserve a special souvenir. It is printed on gloss paper and bound with a hard laminated cover.

BestFriendsBook

MiniBook

The MiniBook - an endearing mini photobook that is perfect for narrating the wedding using the most amusing, unofficial shots. Printed on gloss paper, it is bound in paperback with a personalized soft laminated cover and can be ordered in lots of 15 pieces. It can even be used as a post-event favor.

A beautiful guardian of your most precious memories.

WeddingBox and Cases

WeddingBox is an exclusive case that can be entirely personalized and completes the coordinated image of the Album Epoca wedding concept.

Its beautiful graphic design and the space dedicated to photos also give to the packaging a particular photographic style.

The hard outer case is covered with a special fine-textured silky fabric and the stiff cardboard internal area is tied with a ribbon. It is also available the WeddingBox version with the simple customization made by personalised plaque.

As an alternative, it is possible to choose the more traditional case bag, in **ecoleather** version, available in black, white or dark brown matched with the cover model.

The names of the couple and eventually the date of the event are engraved on the square metal plaque embedded on the wedding cover. With the possibility to customize the photographer name.
