Smart Hook Technology

877-580-6218

Think Safety --- Think Quality --- Think Haugen

Patent Pending # 62/412,271

Swivel Hook with Smart Hook

- 14,000 lbs capacity
- Slips over your fork tines
- Holds a Hook at 24" on center
- Know how much your load weighs and consult your load chart before extending the boom on your Telehandler.
- Easily fits onto any Telehandler or Forklift.
- Comes with a padded carrying case

- Safe and Simple -

"All wireless and ready to use out of the box"

Swivel Hook with smart hook technology sends a wireless signal to a hand held monitor. This gives the operator the weight of each load.
