IF ON SKIN: Wash with plenty of soap and water.

If skin irritation or rash occurs: Get medical advice/attention.

Dispose of contents and container at an approved disposal site, in accordance with local regulations.

Other mandatory elements on your label

- the name, address and telephone number of the **candle manufacturer** (that is, yours, not Erfello's)
- the nominal quantity of the product (net weight)
- the product name
- candle safety instructions (for example: never leave a burning candle unattended), where applicable

Please note: the texts above apply to candles and wax melts made with this fragrance oil alone, in a non-hazardous wax. If you blend several fragrance oils in one product or add other additives, the classification of the finished product changes and must be recalculated.

This document is based on the fragrance manufacturer's CLP labelling document and safety data sheet (SOUTH PACIFIC SPA (PF), version 1 of 11/09/2026), with the statements given in the official wording of Regulation (EC) No 1272/2008, Annexes III and IV. Substance names are given in their international form.

The information is based on the data available at the date of issue and on the current interpretation of the CLP Regulation. Responsibility for the correct classification and labelling of the finished product lies with its manufacturer.
