etter to My Friends

Going Through the Door of the Jubilee

My Loved-ones,
 This month, I want to pass on to you my answer to the question of a brother because it can enlighten all the parents of the Light on what we must do in order to get ready for the great celebration of Michael.

Gilles Balance:

Considering the message of the Angel of the Father transmitted during Gabriel 2016 and the beginning of the jubilee, what advice can you give us, what discipline should we do to be best prepared for the passage of the second step during the celebration of Michael?

Message of the Angel of the Father:

"There comes a time when man must awaken, take stock, reassess, purify himself in order to present in front of the reality-Light while being clear and responsible. This is the process of the second step of the great initiation of God. Man works on himself for 6 months to get ready and he has one week to meet the Angel and receive his instructions.

This is what you have just experienced with this jubilee, and it makes me happy. What I like is when truth appears by itself, it becomes obvious. It is obvious that those who committed to being parents of God, and who answered without hesitation to the call of Archangel Gabriel have made their intention official by the act, and because of this, they passed through the door of the jubilee."

Olivier Manitarà:

Actually, this jubilee is very special, for the door was opened by the formation of the circle of the Parents of God, which must also be a circle of sages.

Archangel Gabriel wished for this circle to be formed under his authority, in his name. It was an invitation, but in reality,

Letter to My Friends

the wisdom is to always carry out the will or the wishes, the requests of the higher worlds and to obey God.

The Archangel wished, but in reality, it was a test, for if we did not answer his call, we would not have passed through the door and our path would have stopped there.

I advise you to study and transmit to future generations how this really happened. It was very beautiful. Nothing was ready because nothing was planned. The Archangel wished for us to commit in his name and during his celebration. The words were transmitted in the temple, among other words, and nothing more was added. It was the holy congregation that decided and emitted the wish to form the circle of the Parents of the Light. It was the master of the Order of Priests who came to tell to me the wish of the congregation and who asked me if it was possible to pass on the instructions. All of this was done absolutely spontaneously. Then, the Angel of God, the holy messenger, revealed that it was an initiatory test and Archangel Gabriel confirmed it.

To be a parent is to make a commitment in front of life and in front of the universe.

In the world of men, to become a parent is irremediable; whatever happens, it is until death. Nothing can remove such an act and its consequences.

In the sacred world, becoming a parent of God is also an irremediable act, but it does not stop at death, which is eternal and immortal. This must and can only be an act of consciousness and love, a gift of self. In no case must it be an obligation, slavery, coercion, a source of discussion or of discontent, for we must not mix what is the food of the world of men and that of God. God must be fed with wisdom, devotion, clarity, purity, honesty . . . I must remind you of this discipline, for no breaching must happen.

The commitment that we have taken in this life is simple. This is my point of view and I find that we have an incredible chance.

In the history of the humanity of the Light there have been few commitments so light.

1) We must place the form of the Worship in our home and practice the worship of the Light as an offering to God. This is a happiness that will grow and grow. Of course, this implies supporting the Round of Archangels and the work of the Essene Nation.

2) We must support the body of God the Light in incarnation by a financial offering. This is obvious and it must be done with responsibility, love, individuality, lightness and prosperity. Remember that only God is the source of all riches and abundance.

What is the Second Step of the Initiation into the Mysteries of God?

This is the moment when man passes the test of meeting an Angel and associating with him. For this, man has to renounce the world of man. In general, this happens through a very difficult test in which the individual is pushed to the extremity of his limits. If he abdicates and gives himself to God, the Angel can appear and free the man from what oppress him. The man then sees an inner light appear inside him that starts speaking to him. Then the Angel will make the worlds that surround the man and live with him, through him, appear. He will transmit the methods to free himself from the dark and falsely luminous worlds to the man. This is the teaching transmitted through the Essene wisdom.

In the beginning, the man is initiated by another. This is the transmission of the energy that acts through the good turnaround of the heart. If the initiate answers the call of the heart, he takes a step forward and commits to the Round of Archangels. He goes into the sacred circle, into the space opened by the holy congregation. He makes a commitment and receives the Essene teaching that comes from the Angels. He supports the Teaching by adhering to the Library and joins in the 4 fundamentals. Then, he commits to the initiations, which are the process of individualization, the outcome being the alliance with an Angel. This is the second step.

The logical continuation is to enter freely, consciously, out of love, into the circle of the Parents of God and to make the eternal commitment of the soul to take care of God, to be a parent for Him and to give birth to Him in the world. This is the commitment that we have made together. In the history of humanity it is a historical act.

I would love for the names of all the first Essenes who made this commitment to become a parent of God to be engraved on a stone that will be placed in a sacred place dedicated to Archangel Gabriel so that the future generations do not forget this pure commitment, which can only grow, become obvious and ennoble the whole world with a new consciousness and a great new era.

That God is alive in earth, water, air and fire as a presence of the virtues is obvious. It is not about honouring humans, which would be ridiculous, but about cultivating the memory of a sacred, noble, worthy and universal act and a commitment that must be led to completion, without fail, so that the future generations find a new path of awakening, of service and of immortality.

I think that the Angel wanted to tell us that this moment separating us from the feast of the jubilee of Michael is an

Letter to My Friends

initiation that will make the worlds that live around us appear and that we must accept to be transformed in order to welcome the Angel in our life.

The Angel is the Father and we must be the mother, the spouse.

The Angel is the knight and we must be the horse.

This is the completion of the second step.

Now, I do not know what will occur at the fire celebration of our Father Michael, but I foresee that it will be his consecration, his victory, his fulfilment and that our Father will be presented before God to be honoured for the accomplished work.

God fire and the Light will bless the work and will commit in front of the circle of Parents. This is why we must clean our earth in order to be "virgins," "pure," without any bad seed in front of God. This is big, and it is also why the new land is appearing in Panama because it is the seventh step, the last step, the land of silence, there where man is silent in front of God, becomes virgin and gives himself to Him in order to carry out his will, carry his seed, give birth to his Child and take care of his house.

Be blessed by my Angel, he who is like the sun, always luminous and omnipresent.

I am proud to be with you in the circle of the Parents of God.

Olivier Maniata.

Essene Village of the Maple Tree, June 17, 2016
