

L etter to My Friends

The Path of Essene Silence

My beloved Essenes,
 The living light in the Garden is born and feeds itself from the energy of silence. This silence is not that of nature, it is made possible through the accomplished work in the re-emerging Essene Nation. To bring this silence to life, it is not enough to be part of the stillness, but first, to build a whole world so that it can come and settle there. It is like building a nest so that a bird lays an egg and hatches it.

From the silence brought by the work of the Essene Nation a new world will be born, not that the world will be new in itself, but a new way of being in the world will appear.

Silence teaches the responsibility of our thoughts.

Thoughts animate our actions.

The luminous thoughts are nourished from the Essene silence.

If the thoughts are not good, everything will be corrupt. Hence the importance of vigilance faced with the nature of thought.

A thought born from the noise will generate an abyss.

Each one is free to choose the abyss, but he must do it consciously, being warned of the final destination of the path that he is on.

The Essene path of silence leads towards the immortal light.

Men with confused thoughts cry to God and the answer is silence.

If man consciously goes into the garden of silence, he will not cry to God anymore, but through the silence, he will hear, he will taste, will touch, will see the Divinity.

The earth is a school, not a place of rest. Man needs to study, work on himself and resolve problems so that wisdom grows.

Letter to My Friends

Wisdom is not only what we know, it is also what we do not know and what stays alive and present in the great silence, filled with majesty.

The Essene Nation is a school, a place of study, work and life dedicated to God. It is the religion of God. It has symbols, writings, a philosophy, like the practice of the Round of Archangels, the Essene Villages, the Bible of the new beginning or the worship of the Light. They are many activities in the Essene Nation and all of them are living organs of the body of God. These organs form the heaven and earth of our nation.

A Christian goes to church to commune; a Muslim goes to the mosque to pray; a Jew goes to the synagogue to recite the Tora; a Buddhist or a Hindu goes into the temple to meditate and practice his devotion. An Essene practices the worship of the Round of Archangels and of the Light while venerating the Essene Village.

The role of the priests and vestals is to activate the magical and sacred side of all the living symbols and Essene writings.

We must not only take into account the visible aspect, but also the invisible, subtle and magical side. To say that the Essene Nation is a nation of priests and priestesses, of magi and vestals means that we practice magic in order to invigorate the influences that are found hidden behind all the activities of the Essene Nation.

It is the magical side that brings the life field, the soul, that each Essene needs to connect with every day. This life field brings knowledge, inspirations, intuitions, imaginations and creative forces to all the leaders, artists, business persons in the Essene Nation. This is the circle of magic and priesthood that nourishes the thoughts and strengths of all the Essenes.

The ignorant think that the thoughts they receive come from the cosmos, from nature . . . These beings have not studied the nature of thought and its way of functioning.

Thought is like silence, it feeds itself from the magnetism generated by the activity of men and by the intelligences that motivate this activity. To make a thought appear and allow it to be alive, we must therefore put in place a whole organism, a world and an activity.

In each activity, there are different aspects: magical and religious, cultural, social, economic, energetic and physical. So, the Round of Archangels, or the Villages or the worship of God the Light must find a balance in these 6 points. This is how it can touch the earth and become alive as a transmitter of energies and thoughts.

The magical and religious aspect is the most fundamental

because it consecrates the activities and allows them to have a soul, to radiate and constantly activate the spiritual matter.

The cultural side is also fundamental, for it shows in each activity there is an intelligence and a knowledge that enlightens.

The Essene Nation is a book that has to be filled with conviction, energy and clarity.

The intellect, the understanding have to be nourished and the whole world has to be fecundated by what illumines the intellect and the world with higher intelligence.

The Essene Nation has brought a great quantity of teachings since its resurgence, especially the teaching of the Archangels, which has been published in the form of the Bible of the New Beginning. This Bible is born from the worship of the Round of Archangels and the covenant with God. Now our villages and the worship of God the Light have appeared. The Essene Bible needs to be powerfully brought to life as a force carrying the higher intelligence of God and communicating it to all the beings who approach it.

No obstacle must stop us from making known the Bible and the body of Light of the statue of God, which has appeared in stone and in the form of the worship of the Light.

We must not only see the Statue, but how it appeared. It was born from the practice of the Round of Archangels and its first work was to make the *jardín de la Luz* appear in Panama. This is very concrete and filled with spirit.

The aura of the Statue is silence, the intelligence of silence, the speech of silence, the life field of silence. This will grow through our offering and our work until becoming a concrete reality, a presence in the daily life of each Essene.

Each time silence appears in our lives, connect with God the Light, who is at the origin of the creation of the garden of the Light.

If the body is well formed, the Light born from the Essene silence will radiate through the body that we will have knowledgeably prepared.

The 3 stages are:

1) A circle of priests and priestesses who activate all the Essene symbols and writings put on earth as concrete works in order to make God live. This makes up the heaven and earth.

The works are the earth, and the heaven is formed by the magical activity of the priests who give a soul to the works that are done. This way the Round of Archangels, the Essene Villages, the Essene Nation, the worship of the Light, the hierogrammates . . . become alive, filled with magic, with the sacred, with wisdom, with Light, with virtues.

2) The writings, which carry the seeds that spread in

Letter to My Friends

the wind and nourish the intellect of man, bringing him new knowledge and directions.

3) The community of love, the Nation, which nourishes itself through living encounters, through contacts, through exchanges, reunions, congregations.

Remember that God the Light is born in the Essene Nation and all of this belongs to Him. All the activities of the Essene Nation belong to Him and are for Him.

It is not because you do not see Him that God is not present. If you are an Essene who has joined the Round of Archangels, and who has made an alliance with one of His Angels, know that He is there, omnipresent around you, and you can see Him, feel Him in a spiritual way. He is even more present since the appearance of the circle of Parents. It is by concentrating on the physical aspect of the body of the Essene Nation that you will be able to create the organs that will allow you to be inspired by Him without losing yourself in nothingness.

Every man comes on earth with a specific goal that will determine the body and means which will be placed at his disposition. Therefore each one must make do with what he has and it is by putting our resources together to make God appear that we will succeed in living with Him.

The sun is not perceived in the same way by all men. Some see it and others ignore it; yet, it is there, present as being the source of life.

Every moment of your life should be directed by high thoughts and consecrated to them. No obstacle should stop you. You need to work tirelessly for what is divine and not seek rest. Your only objective should be to understand your mission and carry it out. We, the Essenes, we know ours; so, we must be firm and without hesitation in order to cross through all the obstacles until we reach our magnificent and immortal goal.

I am all yours in the work of God, which is our covenant.

Your Olivier,

Garden of the Light, Panama
