Words of love . . .
between men who awaken

The Great God of Love Lives in Us

My Loved-ones,

The freedom of the other, his well-being, his evolution, his awakening of higher consciousness is our own heritage. That is the attitude we want to develop and this is how we want to live in accordance with the law of God and his living, universal, natural religion.

Today, manipulation is powerful and as Essenes, we are under attack from beings who, slyly, want to push us to withdraw into ourselves, to confine ourselves so that we are no longer active elements of society. In this way, we would leave room for those who do not want us to exist. Our difference bothers them. They emphasize the danger of being different, of not thinking like them, of not obeying them blindly. In the name of tolerance, they advocate intolerance. In the name of the law, they create social, ecological, scientific, human injustice. We must constantly prove that we exist, that we are legitimate and then we have to apologize for existing, for being us, for thinking as we think.

To combat "sects" and religions, that is, "the other," so-called secular governments will become sectarian and religiously crusade against the "other religions."

We, Essenes, are true patriots because we love all countries and religions born of God and that is why we want to be critical in front of all scare tactics that hide evil,

discrimination, racism, hatred of the other or of a part of the population.

To be patriotic means to protect your country, your religion, your community from the enemy, whether external or internal. To do so, we must remain vigilant in the face of what divides us and places darkness in the government.

Essene values are the values of all peoples, of all religions and of all universal and respectful philosophies.

We, Essenes, must bring peace and healing to the world. To do this, we must be rooted in our tradition, strong in our values and eternal wisdom. We must be firm, determined, active and not let ourselves be influenced and manipulated by beings who want to exploit us, to usurp, to denature or to confine us, to discriminate against another citizen. Racism, discrimination, lies, manipulation must not pass.

Through our intellectual, moral, voluntary refusal, through our consciousness, our steadfast and respectful attitude, our behaviour, we must bring peace, respect, brotherhood, tolerance, and live them together.

“The great God of love lives in us.” This “us” is what unites us and connects us to each other, it is the religion of God. That’s it, it’s simple. It is us, it is the earth, the stones, the plants, the animals and people. Whether beings have a religion or not, they are part of this us and therefore part of the religion of God. The rest is a matter of consciousness and education.

It is obvious that there are beings, worlds that do not want this awakening to happen, because they would lose their power, their control over people and, through them, over animals, plants and the earth. But the revolution is underway and the Essene Nation must participate actively, intellectually, morally, voluntarily, artistically.

“The great God of love lives in us” is the whole Religion.

All forms of discrimination, all attempts to impose an arbitrary way of life, a belief, a philosophy are contrary to human dignity and the principles established by the Universal Declaration of Human Rights.

For these reasons, it is important that the celebration of the Round of Archangels becomes powerful and takes root in a discipline, a lifestyle, a healthy practice.

Our publications must be stable and the Order of Hierogrammates must be organized and active.

The Order of Priesthood must be alive in prosperous and dynamic villages so that our spiritual practices can be active in all subtle worlds to place the seals of the higher worlds.

Our massalas and study circles must be active in order to create events in all cities, circles of friends, places of discussion, exchange, information, prayer and singing.

We can be of any denomination or even believe in nothing and have ideas, defend values and love to sing, share. . . In this way, knowledge and mutual respect will be established and the Essenes will become stronger in their commitment, service, happy or painful experiences, but led to wisdom, dialogue, intelligence and the offering to the great God of love that lives in the us.

When we ourselves will become a loving self, the holy assembly will embody our angelic egregore and together we will be the religion of God. From our small us, we will go towards the great us to free the worlds from the invasion of fear.

“Be free from fear.”

Uriel

We must be effective and provide concrete, living answers to all the problems that the world of darkness brings to humans to give them radical, extremist, degrading, illegal, immoral solutions worthy of the darkest periods in the history of human decay.

Today, men are convinced that they will win the fight against inequalities, insecurity, violence, drugs, crime through a political solution, then by the force of weapons. This is a dead end. Disappointed by religions that betrayed them by putting themselves at the service of the darkness, they forgot that only the religion of the Light can restore order and bring happiness, respect, freedom for all. We, the Essenes, we must prepare to refresh their memory and show them the way out of this crisis, which has been ongoing and growing for thousands of years. For this, we must be together, we must join forces and act to bring together and not divide, to educate and awaken and not to fall asleep. All beings must be called to the work for the appearance of the great religion of God, without dogmas, without borders, without fear or darkness.

Countless beings are trapped in suffering because of the collapse of the intelligence of the true religion and the government of peace and justice. It is time now that God's voice is heard on earth because of all those who no longer have a voice and who can no longer be heard to protest against stupidity and the wickedness that enslaves them and reduces them to the name of the so-called common good.

Letter to My Friends

Words of love between men who awaken

God alone is great. He alone is intelligent. His kindness, his justice, his peace, his Round of Archangels govern, because it is the Angels who are the kings of all virtues.

The laws of God are immutable, because they are the laws of nature and the universes.

To flout the laws of God is to condemn people to misery, to slavery and perdition. It is time for this to stop and for the great God of Love to live in us again, breaking the power of a few politicians who lock up beings in a system that degrades them and makes them hate themselves and be under the influence of fear, hysteria and of evil.

Let's take our lives and destinies in hand.

May the Father be honoured.

May his Name be sanctified.

May his reign be established.

May his will be done on earth, in the visible, as in heaven, in the world of consciousness and living thoughts.

May each being be able to taste the bread of happiness and fulfilment.

May each being be educated in order not to offend anyone.

May each being be prepared to resist the temptation to serve the dark side.

And may we all be delivered from evil by the great God of love that lives in the us.

Olivier Manitarà.
