AQUA TABLE

AQUA TABLE

Zaha Hadid

An impressive centrepiece by the late, great Zaha Hadid, the glossy surfaces of the Aqua Table inspire curiosity with irregular fin-like legs that are expressed as indents in the gently undulating, fluid tabletop.

THE DESIGNER

Zaha Hadid was the first woman to be awarded the distinguished Pritzker Architecture Prize in 2004 and is internationally known for her built, theoretical and academic work. Her recognisable and remarkable style is characterized by fragmented geometry and bold fluid forms.

CLEANING GUIDELINES

SATIN-MATT POLYESTER

The table should first be dry dusted with a clean, cotton cloth. If wet cleaning is required, the item should be cleaned without pressure using a soft, slightly damp sponge using deionised water (Tap water contains salts that can leave a residue on the surface of the polyester.) with a mild, non-coloured detergent, such as Ecover Washing Up liquid. If this method is used, the table should be dried thoroughly using a foam sponge in order to avoid temporary streaking and residue. Do not use cotton cloths or other high lint materials at this point.

HIGH-GLOSS

Same as above, however, it can be polished with a lint free cloth.
Avoid contact with certain solvents, including white spirit, toluene based products and acetone (Beware of many household cleaning products and polishes as these may contain potentially damaging solvents).
