GRID CORNER SOFA Ronan & Erwan Bouroullec

GRID ROOM DIVIDER

Ronan & Erwan Bouroullec

A colourful room-within-a-room, the raw shell of the GRID System provides a base for modular seating, shelves, tables and screens, which can be integrated in different ways to create a playful and multifunctional environment for informal meetings, presentations or simply hanging out.

THE DESIGNER

Ronan & Erwan Bouroullec have been working together for over 20 years, bonded by diligence and challenged by their distinct personalities. From designing spaces to furniture, taking on architectural projects to designing textile wall systems or comprehensive collections, the brothers maintain drawing and experimental activity as essential to the development of their work. Their designs are part of select international museums' permanent collections, including the Musée National d'Art Moderne, Centre Pompidou and the Musée des Arts Décoratifs in Paris, New York's MoMA, the Art Institute of Chicago, the Design Museum in London, and the Museum Boijmans van Beuningen in Rotterdam.
