# HEIDI STACKING Sebastian Wrong

---

# HEIDI

## Sebastian Wrong

---

A mix of modernity, nostalgia and utilitarian form, Heidi is a fun stool of a simple and sturdy construction which takes its inspiration from the classic tractor seat. When developing the stool, Wrong focused on comfort and functionality creating a cantilever base that flexes slightly with movement so that it feels very natural to sit on – a responsive movement not common in most stools which tend to be stiff.

A powder-coated tubular steel leg adds a robust, and competitively-priced, stackable stool to the Heidi range. The redesigned base is paired with a new seat made from vacuum formed thermoplastic and Baydur, an injection-moulded resin – the gloss UV protected finish is tough and suitable for outdoor use.

### THE DESIGNER

Sebastian Wrong originally studied sculpture before going on to establish his own successful manufacturing company. His portfolio of work spans furniture, lighting, accessories and gallery projects. As a founding member of Established & Sons, Wrong contributed significantly to the development of the collection. He continues to exercise his abilities in the field of manufacturing at Established & Sons as well as bringing his considerable creative skills as a product designer.

# About Established & Sons

Established & Sons is a British brand representing all that is innovative in contemporary design. By supporting the best creators of our time, it has built a collection for people who are passionate about design, presenting imaginative products with style and personality.

Designers and artists are afforded the freedom to explore their own language, advancing pioneering ideas that deliver exceptional furniture and lighting collections. Combined with Established & Sons' commitment to skilled craftsmanship and cutting-edge manufacturing techniques, this produces intelligent designs that are at the same time diverse in the extreme and united in their quest for the extraordinary.

The Established & Sons collection includes some of the most important examples of 21st-century design. Many of the pieces have been acquired by international museums, galleries, institutions and private collections.
