**Care & Maintenance**

Frequently dusting of this piece will help to maintain the lustre of the finish. For general maintenance, dust regularly with a soft, dry, lint-free cloth. Please be aware that dust is an abrasive and can scratch the surface so this must be done with care to prevent scratching.

If wet cleaning is required, the item should be cleaned first without pressure using a soft, slightly damp cloth. It must be immediately dried with a dry, lint-free cloth. For areas that require further cleaning a very mild detergent and water solution can be used.

Should drawers become stiff over time, a lubricant such as WD40 carefully applied to the runners at the central frame will allow the mechanisms to run more smoothly.

**Weight**
8 drawers, 102kg
13 drawers, 159kg

**Packaging Type**

13 drawers, Crate

**Notes**

A minimum of 4 people is suggested for handling. Ensure this item is kept upright at all times. DO NOT tip!

The stack has been designed so that drawers panels can be replaced in the event that some may become scratched or chipped during use. Should this occur, please contact the retailer for advice.
