# FILIGRANA LIGHT

## Sebastian Wrong

---

Created by Established & Sons' Sebastian Wrong, the Filigrana Light represents the best of traditional craftsmanship, technical mastery and modern design. Using a 16th century technique that originated on the Venetian island of Murano, the highly skilled, mouth-blown production process ensures that each Filigrana Light is unique. Available in five different shapes, five different colour options, and 4 eye-catching cluster groups, the surface of the Filigrana Light is acid etched to create a soft, diffused light.

### THE DESIGNER

Sebastian Wrong originally studied sculpture before going on to establish his own successful manufacturing company. His portfolio of work spans furniture, lighting, accessories and gallery projects. As a founding member of Established & Sons, Wrong contributed significantly to the development of the collection. He continues to exercise his abilities in the field of manufacturing at Established & Sons as well as bringing his considerable creative skills as a product designer.
