AURA LIGHT

Sabine Marcelis

Harnessing Marcelis' expertise in the utilisation of cast translucent materials, the suspended cylindrical bar of the Aura Light can stand alone or work as part of a grouping.

A replaceable LED tube is housed within the coloured acrylic case, with the light travelling through the material to create a warm glow. Easy on the eyes, this soft ambient light effect is ideal for a home-working environment as well as relaxed living and office spaces.

THE DESIGNER

Known for her experimentation with colour and materials, Sabine Marcelis founded her studio in Rotterdam after graduating from Design Academy Eindhoven in 2011. Originally from New Zealand, Marcelis studied Industrial Design at the Victoria University of Wellington before moving to The Netherlands.

General Information
