FILIGRANA LIGHT Sebastian Wrong

Created by Established & Sons' Sebastian Wrong, the Filigrana Light represents the best of traditional craftsmanship, technical mastery and modern design. Using a 16th century technique that originated on the Venetian island of Murano, the highly skilled, mouth-blown production process ensures that each Filigrana Light is unique. Available in five different shapes, five different colour options, and 4 eye-catching cluster groups, the surface of the Filigrana Light is acid etched to create a soft, diffused light.

THE DESIGNER

Sebastian Wrong originally studied sculpture before going on to establish his own successful manufacturing company. His portfolio of work spans furniture, lighting, accessories and gallery projects. As a founding member of Established & Sons, Wrong contributed significantly to the development of the collection. He continues to exercise his abilities in the field of manufacturing at Established & Sons as well as bringing his considerable creative skills as a product designer.
