FILIGRANA LIGHT

Sebastian Wrong

An impressive sculptural addition to the iconic Filigrana range by Sebastian Wrong. A large, mushroom table light with a soft diffused glow, this beautifully designed lamp is an eye-catching statement piece. Featuring candy-coloured cane stripes around a Venetian mouth-blown acid-etched glass shade, it represents the best of traditional craftsmanship, technical mastery and modern design. The complex toadstool-inspired shape is created using a 16th century glass blowing technique that originated on the Venetian island of Murano. This highly skilled, artisanal production process ensures that each light is unique.

THE DESIGNER

A London-based designer, creative director and specialist in modern manufacturing, Sebastian Wrong came to design from a fine art background, and the intersection of these two very different worlds continues to influence his work today. His career spans furniture, lighting, accessories and gallery projects, from creating and curating to commissioning and teaching. As a founder of Established & Sons, he has contributed significantly to the development of the collection and he continues to bring his considerable creative skills as a product designer.
