

Óptica geométrica

Prof. Jadoski
Física

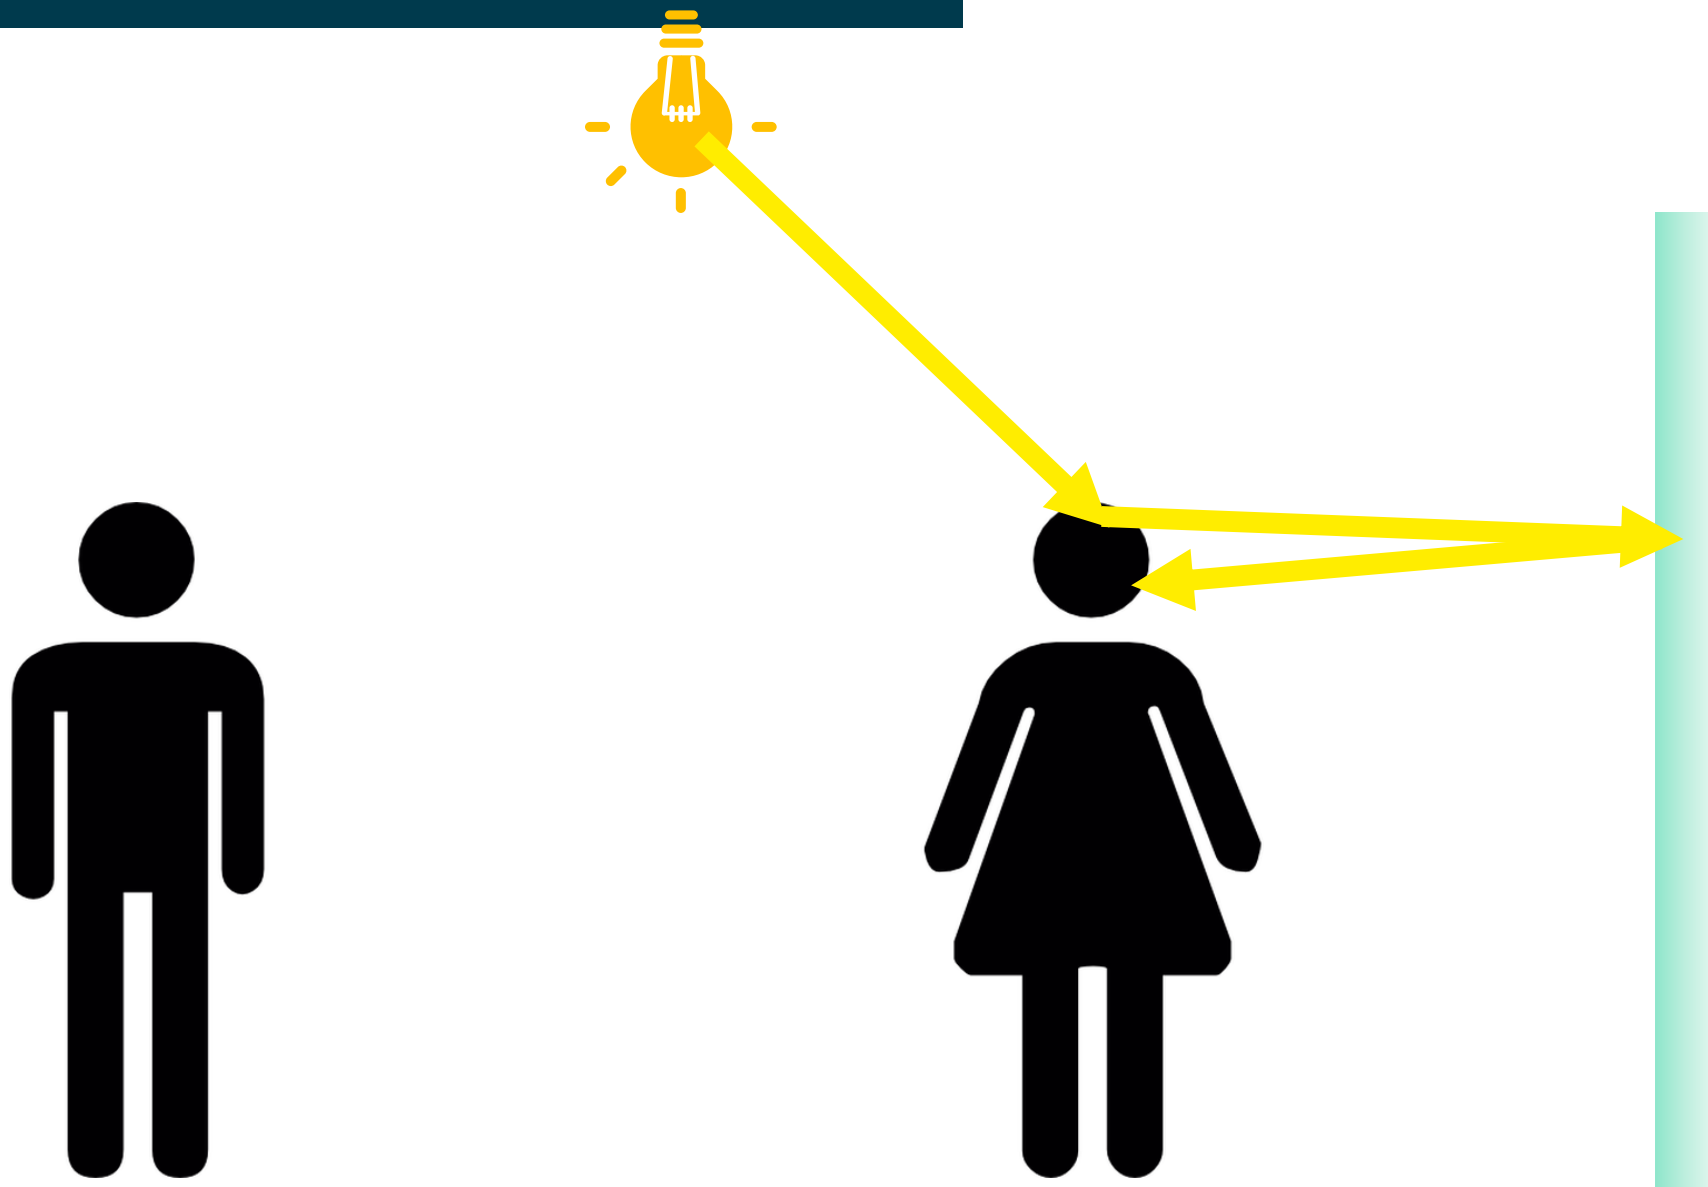

Óptica geométrica

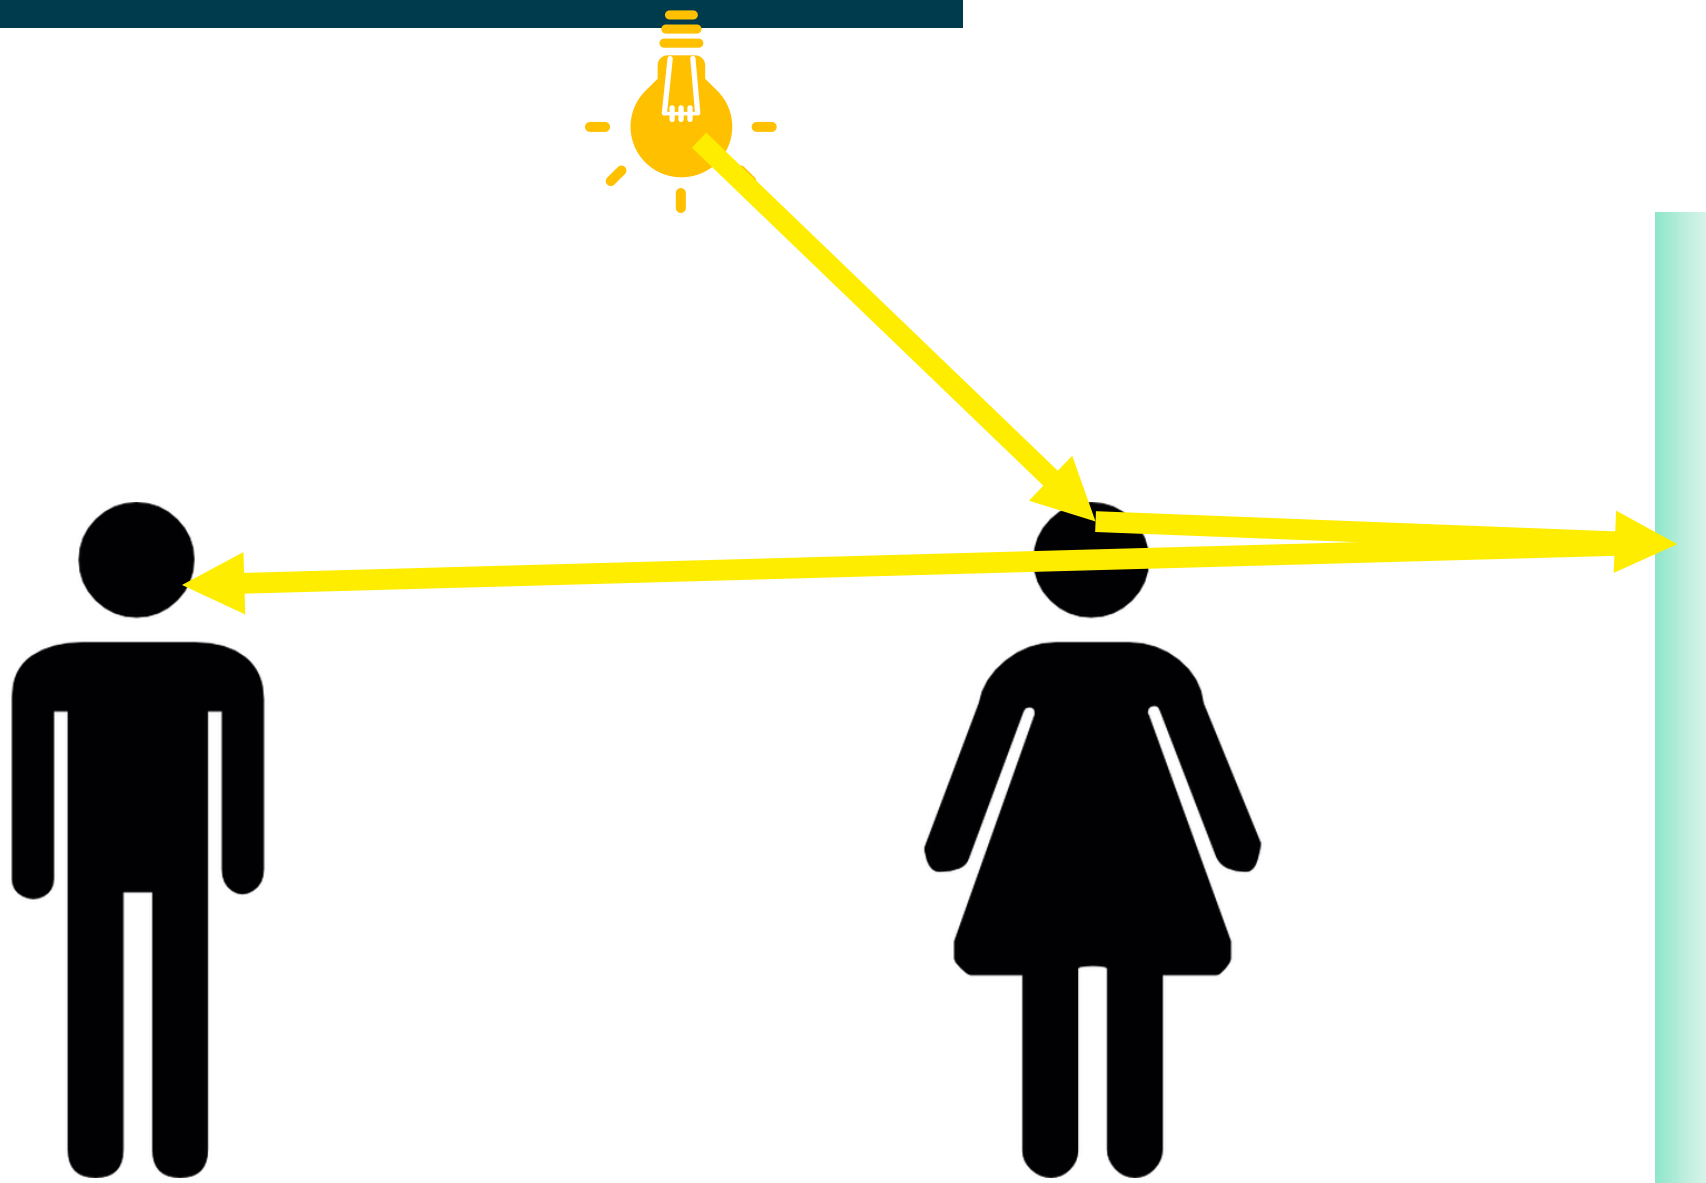

Óptica geométrica

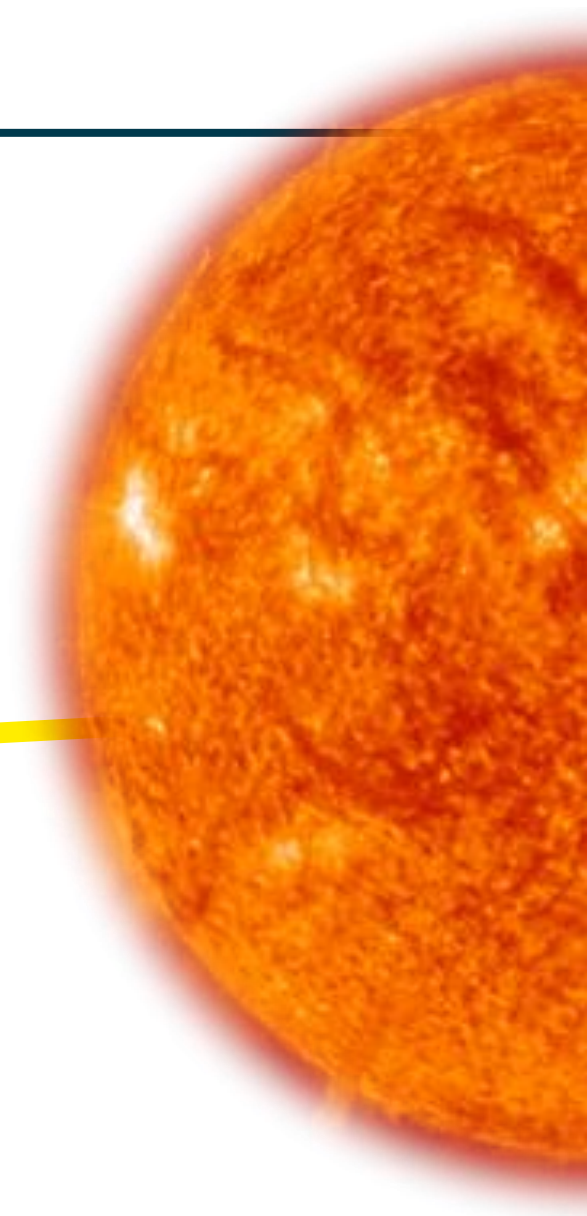

Óptica geométrica

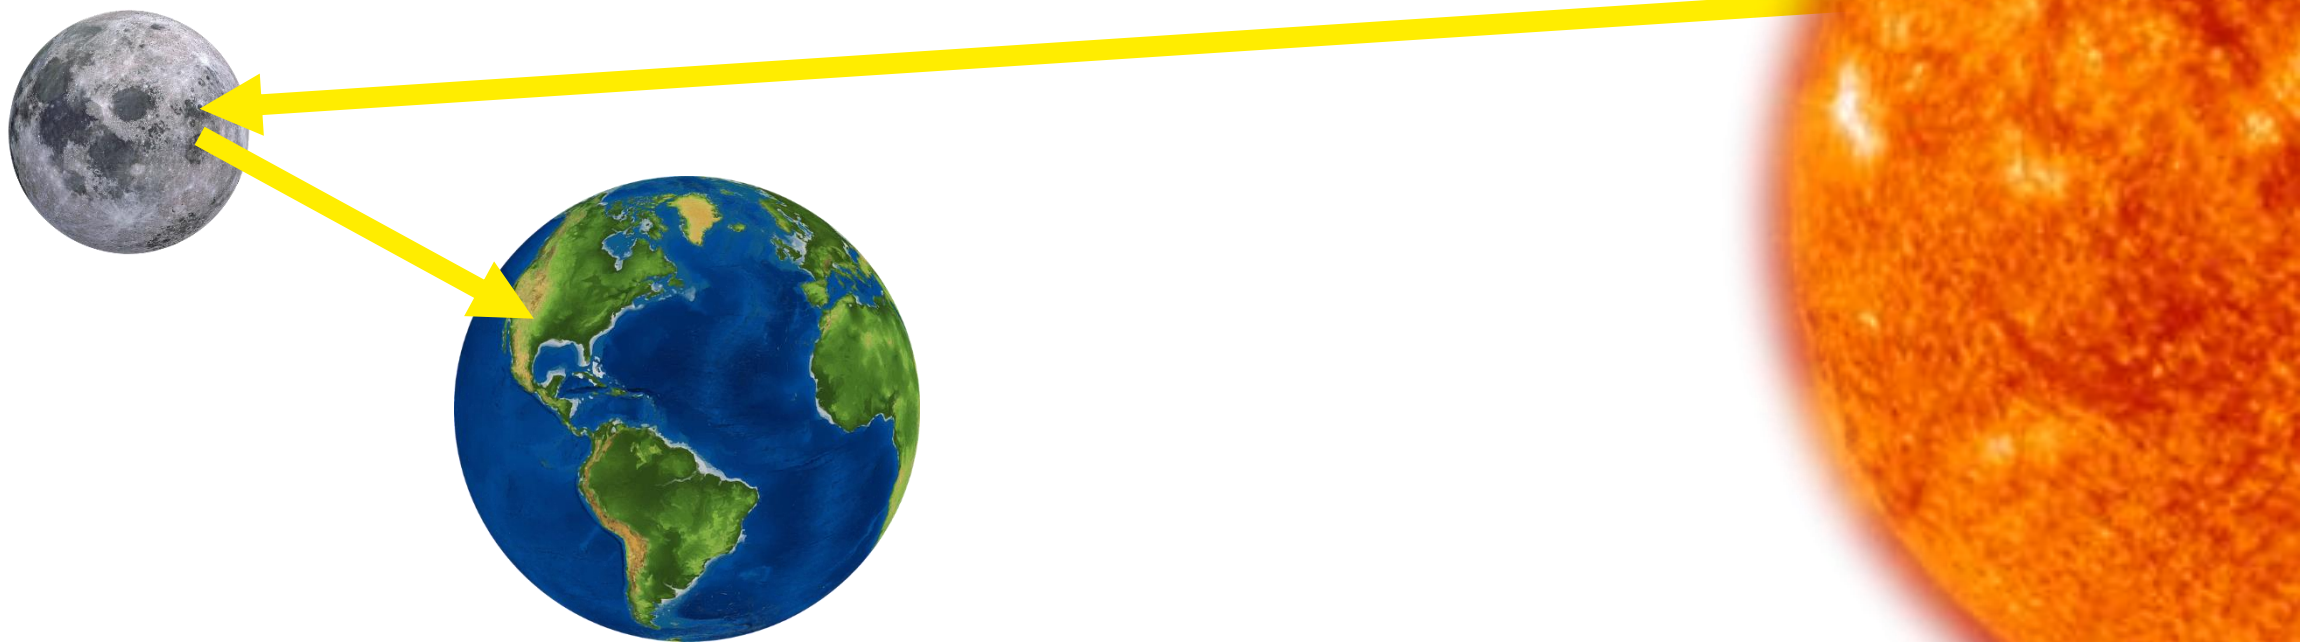

Óptica geométrica

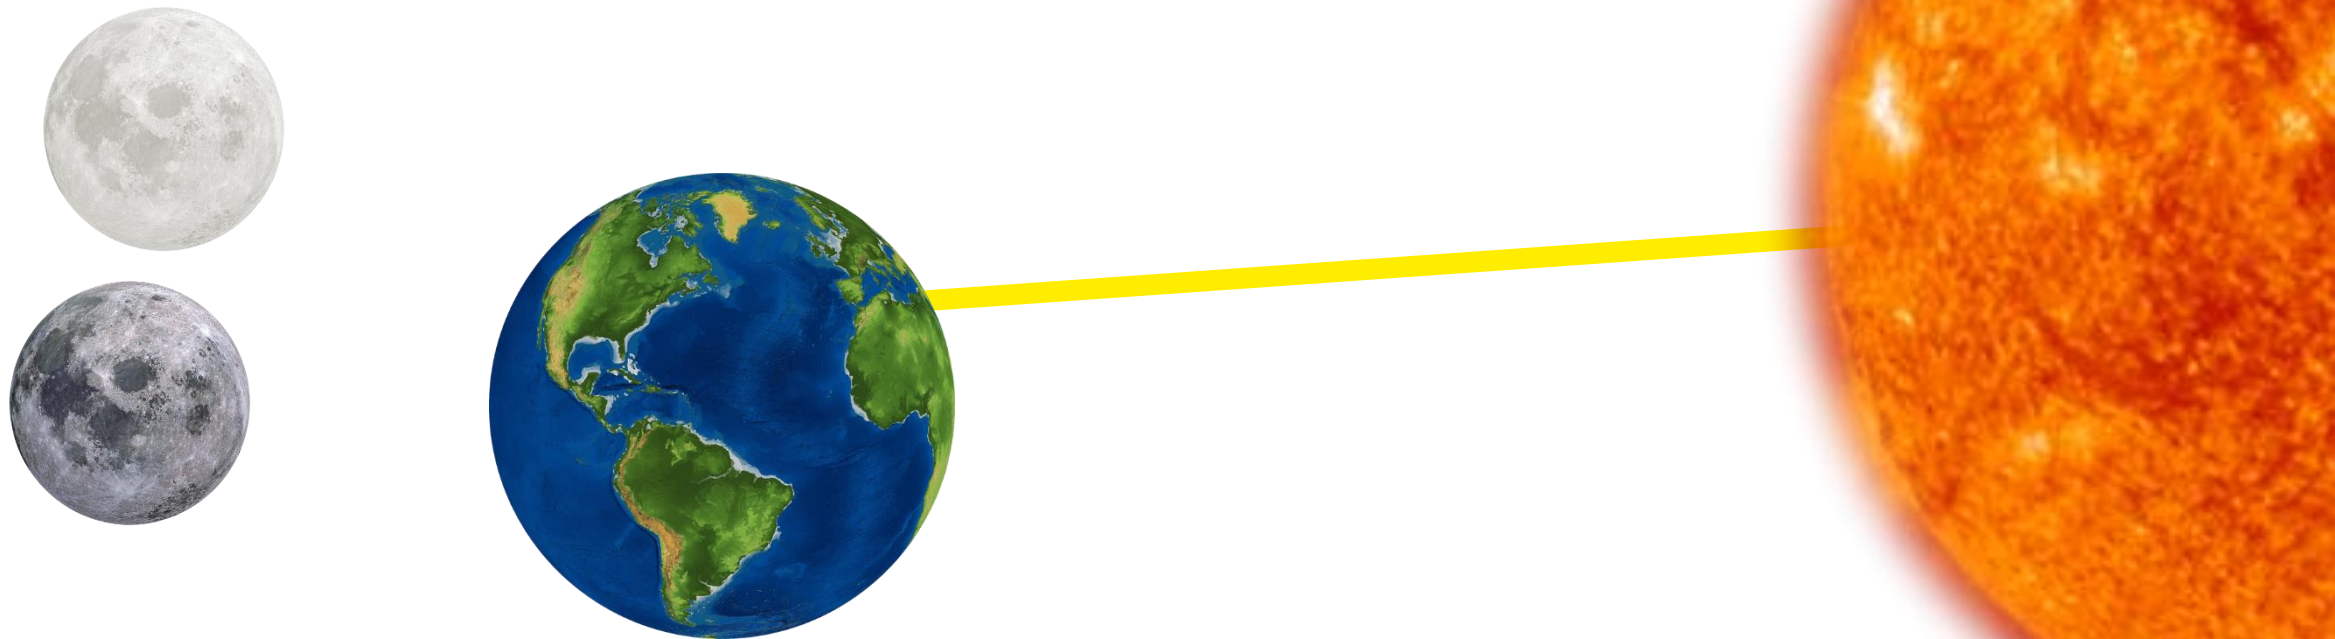

Óptica geométrica

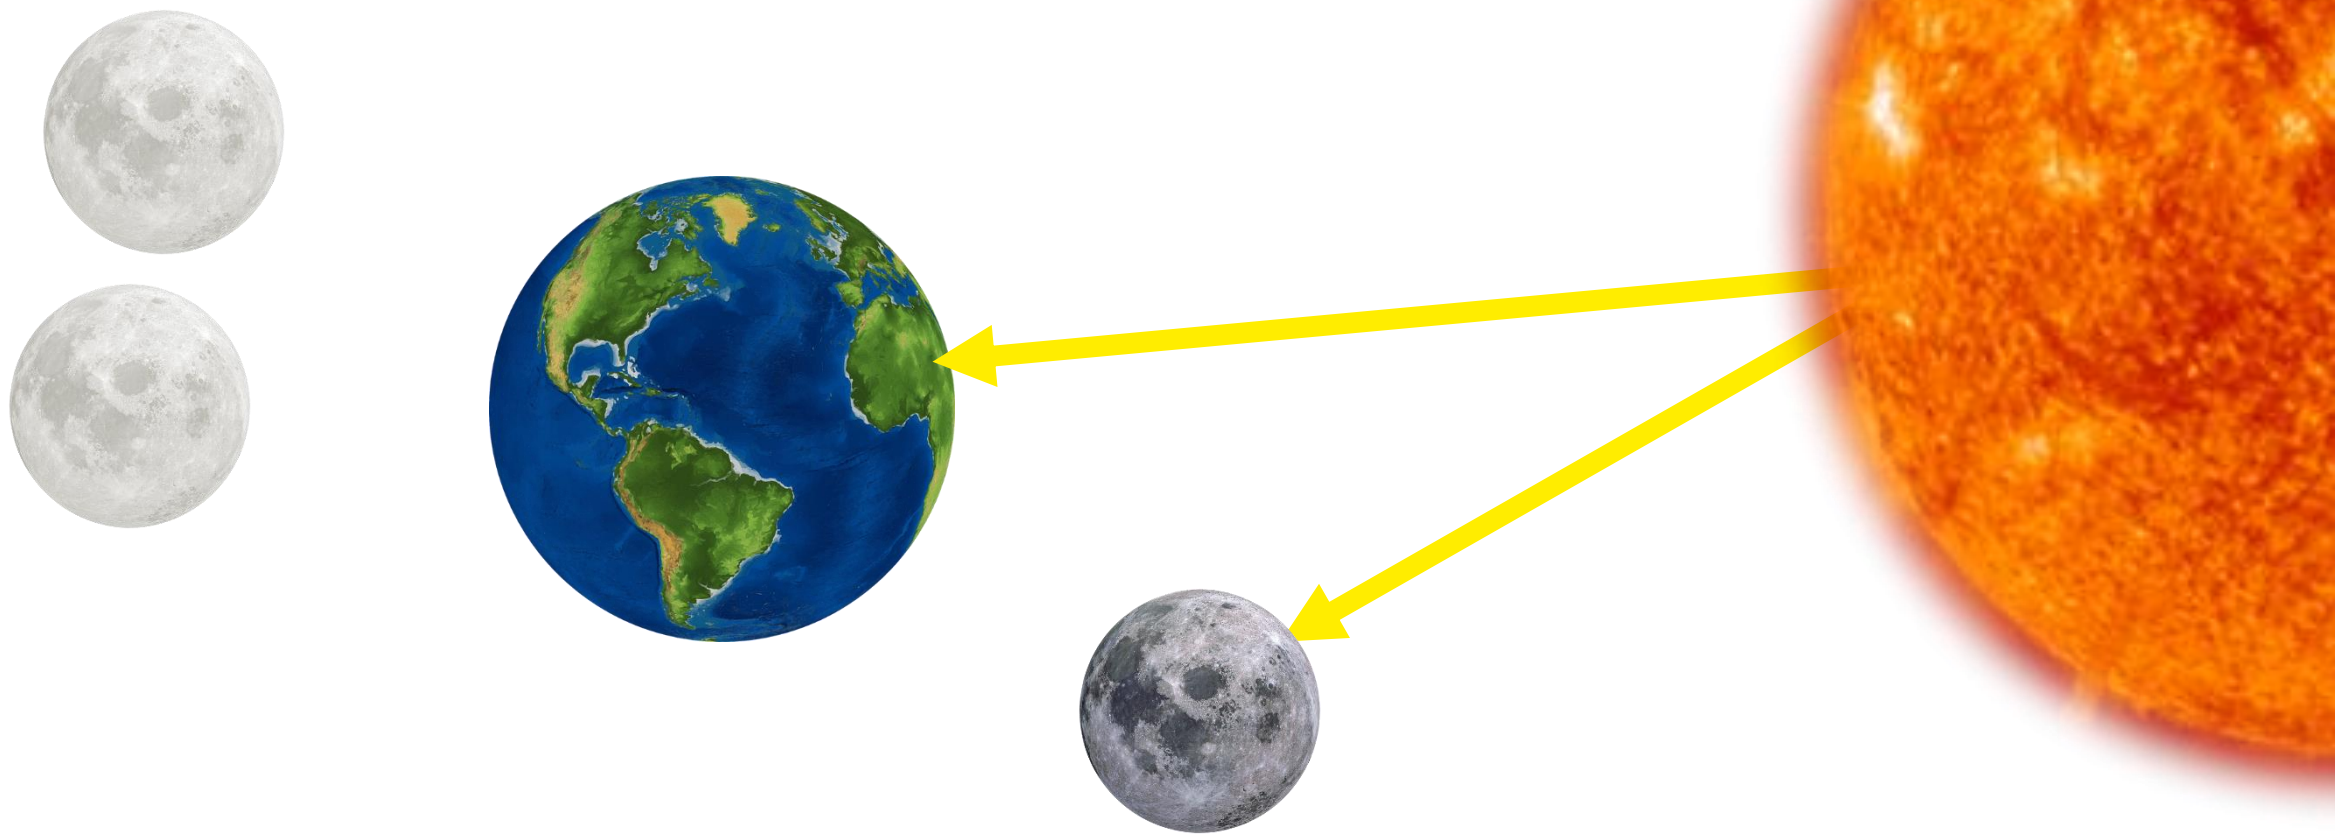

Óptica geométrica - lua cheia

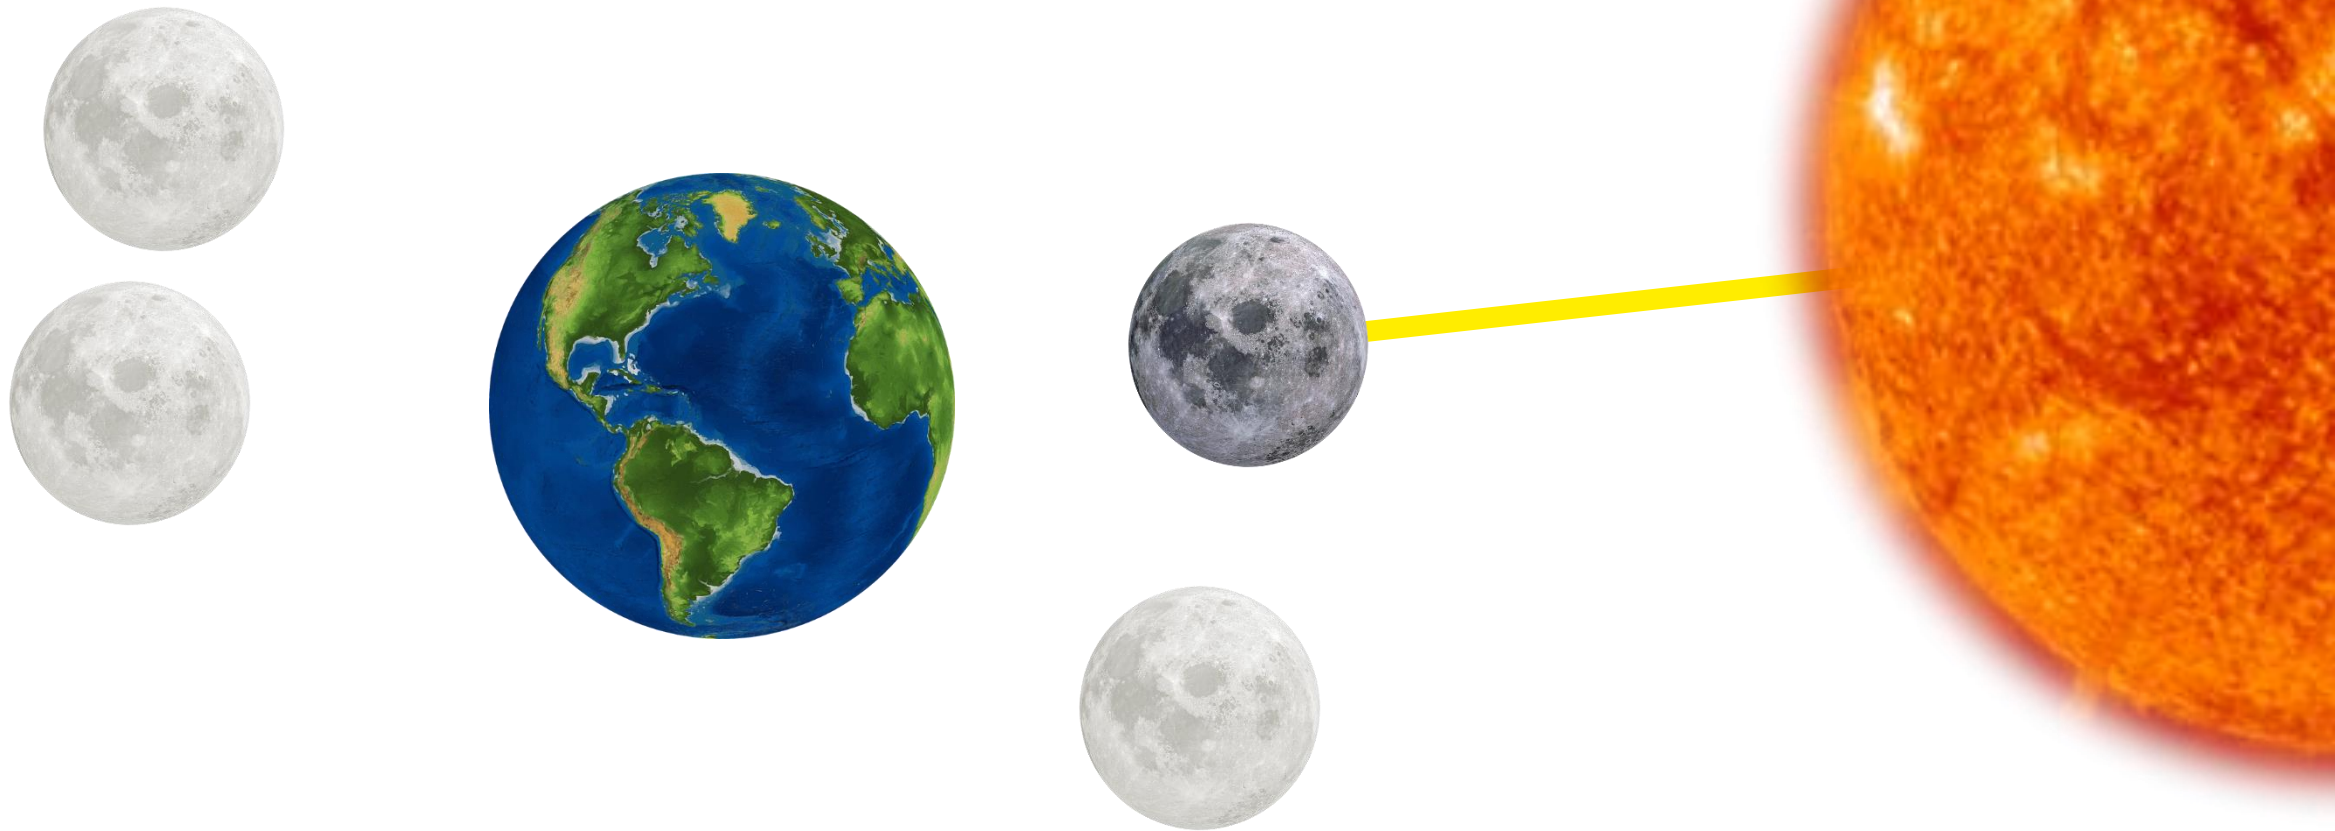

Óptica geométrica – eclipse lunar

Óptica geométrica - lua nova

Óptica geométrica - eclipse solar

Fontes de luz primárias

- Incandescentes
- Fluorescentes
- fosforescentes
- bioluminescentes

Fontes de luz secundárias

- Tudo que não emite luz própria

Meios de propagação

- Opaco, transparente e translúcido
 - Homogêneos e Heterogêneos
 - Isótropos e Anisótropos
-
