Física

Forças da dinâmica: TRAÇÃO

Forças da dinâmica: TRAÇÃO

Polias

n = N^o de Polias Móveis
 F = Força
 P = Peso do Objeto

Polias

n = N^o de Polias Móveis
 F = Força
 P = Peso do Objeto

Polias

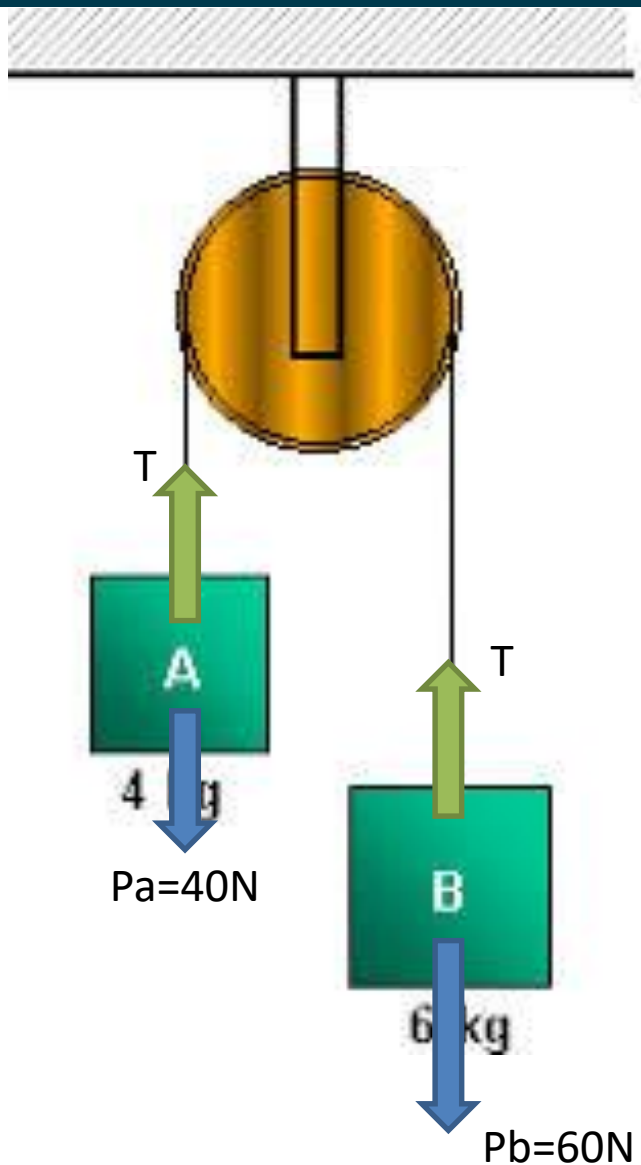

n = N^o de Polias Móveis
 F = Força
 P = Peso do Objeto

Polias

Maquinas de Atwood

1º - analise geral

$$F = m.a \quad 20 = 10.a \quad a = 2\text{m/s}^2$$

2º - analise individual

$$\text{A} \quad T - P_a = m.a \quad T - 40 = 4.2$$

$$T = 40 + 8$$

$$T = 48\text{N}$$

$$\text{B} \quad P_b - T = m.a \quad 60 - T = 6.2$$

$$T = 60 - 12$$

$$T = 48\text{N}$$
