

Global Sales Meeting 2023

February 9th – 14th, Faro

Miltenyi Biotec

Dear One Miltenyi Marketing and Sales Team,

We started the year with an inspiring Global Sales Meeting 2023 in sunny Vilamoura, Portugal – in person once again! After a three-year break, 629 Miltenyians from all over the world celebrated numerous magic moments during the Circus MACSimus Award & Gala Dinner. The first highlight of the evening was a live call from Dr. Richard Tillyer, Global Head of Discovery, Product Development and Supply at J&J Janssen to tell us about their cell therapy Carvykti, both thanking and reminding us of the incredible end results of all our hard work. And there was not a dry eye in the house after we heard from Olivia Wittkuhn, the world's first child successfully treated for long COVID with TheraSorb®! Over the course of the five days, we gleaned practical insights into how Miltenyi Biotec's products are used in cutting-edge applications from external researchers, not to mention a multitude of country meetings, plenary sessions, breakout groups, and booths featuring some of the company's latest and greatest products.

Beyond the chance for our global colleagues to network, especially after such a long period of enforced distancing, we also celebrated the countries and individuals who put in a stellar sales performance in 2022. Thank you and congratulations once again to all who attended, and in particular the new members of The President's Club.

Take some time to reflect on the magic moments we celebrated together. Inspiring, energizing and motivating moments. Certainly, parts of our business were met with unforeseen challenges in the months since GSM. Now, we are in the second half of 2023, we see a lot of positive trends and we want to celebrate together again next year.

There are almost six months to go and I know that we have the best team on the playing field. We still can make a difference. Team play is key. Supporting each other is key. Passion and dedication, working hard and smart is key.

Success we enjoy, having success together we even more enjoy.
Let's rock it Miltenyians!

Yours, Boris
