Ogden Natural Health, 11 Westmoreland Street Harrogate HG1 5AY www.ogdennaturalhealth.com

Disclaimer: The fitness & lifestyle screening is an assessment service indicating certain findings at the time of assessment. We would remind you that this is not a medical or diagnostic service. As your assessment results may be affected by nicotine, medication, alcohol, caffeine, certain foods, stress, pregnancy or other factors, any results indicated should not be regarded as conclusive. Should you have any concerns we recommend you consult your medical professional.

We believe that people are at their best when all their results fall in the optimal range, which is a narrow band within what is classed as the normal range in mainstream diagnoses. Recommendations that are generated as part of our assessment based on your results are offered to help you get all your readings into this optimal range. The vast majority of our clients confirm that they do feel better once they get their results into and then maintain them in this optimal range.
