

Turkey's Imports from Ethiopia

A Focus on the 40 Key Imported Products

Scope of research

We identified **the top-40 largest value import items** traded between Turkey and Ethiopia in 2024, specifically focusing on **Turkey's imports from Ethiopia**.

The analysis was based on the full database on the trade between the two countries (Turkey's imports data, mirror data).

We divided these 40 products into segments:

- I. **Champion-value traded goods** (annual value of shipments of 100 K\$ – 19 M\$),
- II. **Rising Champion value traded goods** (annual value of shipments of 2.8 K\$ – 100 K\$).

We analyzed both long-term and short-term evolution of trade (in US\$ terms only, volume trade not analyzed): CAGR over 2017-2023, Growth Rates in 2024.

Furthermore, the analysis highlights manufacturing sector goods that experienced substantial growth in imports values from Ethiopia to Turkey in 2024.

Notes: use of n/a designation: In 2022, the Harmonized System underwent significant revisions, including the introduction of new commodity items. The "n/a" designation is used for imports values of goods that were previously classified under different HS codes before 2022.

The section of Newly Traded Goods starting 2024 includes an analysis of short-term trade dynamics, including Growth Rates in 2024, as well as Ethiopia's share in Turkey's commodity markets.

Data sources: UN Comtrade databases processed by GTAIC Intelligence Platform.

Data on trade in volume metrics (tons, kilos, and other) and prices are not analyzed in this research. However, they can be analyzed under a separate request.

This research was prepared as of 5th of May 2025.

GTAIC now delivers a similar research for any pair of countries at \$49.99

“Country-to-Country Trade Flow” Analysis

► Parsing and analyzing trade data between any pair of two countries chosen by a user

- **Type of research:**
 - Comprehensive analysis of trade data covering all goods exchanged between any two countries chosen by a user
 - Over 5,000 products across more than 100 countries
 - Data spanning from 2017 to 2025, with monthly updates
 - Time lag: For the majority of countries, up to 3 months from the moment of the request
- **Key Insights from Analysis:**
 - Identification of the largest trade items and the fastest-growing products, both in the short and long term
 - Detection of product group trends and anomalies in trade flow fluctuations based on a thorough examination of comprehensive trade statistics between selected countries
- **Why It's Needed:**
 - To generate a long list of the most promising products traded between specified countries, which warrant further, more detailed analysis with the help of other GTAIC intelligence instruments

How it works?

1. *The user selects any two countries covered by the service (see the list of the countries in the next page).*
2. *For a fee of \$49.99, the user receives a detailed analysis of a specific trade direction (e.g., imports of Turkey from Ethiopia).*
3. *The analysis, including an Excel sheet, is delivered within 24 hours. A sample of the standardized analysis is provided here in this report.*
4. *Customized country-to-country trade analyses are also available. Depending on the complexity of the request, these can be delivered within 24-72 hours. Pricing will vary based on the specific requirements compared to the standardized analysis provided in this report.*

0 Executive Summary

Executive Summary

Over the long term (2017–2024), the compounded annual growth rate (CAGR) of Turkey’s imports from Ethiopia has been **+1.15%**, with the most notable surge occurring in 2023, when Turkey’s imports from Ethiopia rose by 83.14% year-on-year and reached \$37.95 million. Prior to that, imports had declined significantly from \$38.85 million in 2017 to \$20.39 million in 2022. In 2024, the value of imports increased sharply to \$41.57 million, showing a remarkable +14.02% year-on-year growth.

The analysis reveals that agricultural products remain one of the most promising sectors for the expansion of Ethiopia’s trade with Turkey. In 2024, the total value of Turkey’s imports of plant products from Ethiopia amounted to \$34.19 million, reflecting a 9.40% year-on-year increase. Moreover, this product group has demonstrated sustained long-term growth over the 2017–2024 period, rising from \$28.64 million in 2017 to \$34.19 million in 2024, with a compound annual growth rate (CAGR) of 2.24% over eight years.

Executive Summary

The agricultural product sector emerges as a highly promising area for trade expansion, particularly given its strong foundation among small enterprises and the notable market share Ethiopia holds in Turkey's agricultural imports.

Textile goods, including Materials for Textile Production Materials, Fabrics and Clothes, have solidified their position as second-largest export product group from Ethiopia to Turkey, after plant products, reaching \$6.91 million in 2024. Beyond plant products, exports of textile articles from Ethiopia have shown robust expansion, marking a 37.63% year-on-year increase in 2024.

Recommendations:

1. Strengthen agri-export value chains to improve reliability and consistency of supply.
2. Search for buyers in the Turkey's market, especially for high-demand agricultural and textile goods.
3. Expand market reach beyond Turkey, targeting countries with strong demand for Ethiopia's core agri-exports and textile exports for instance:
 - expanding kidney bean exports to Italy and India—the world's 2nd and 3rd largest global importers of these products;
 - Scaling up exports of dried chickpeas to Pakistan and India, ranked 1st and 3rd largest importers of dried chickpeas in the world;
 - Increasing exports of not roasted or decaffeinated coffee to Germany and India—the world's 2nd and 3rd largest global importers of dried chickpeas.

...exceed 98% of total Turkey's imports from Ethiopia

The **Champion-Value segment** represents approximately **98.37%** of Turkey's imports from Ethiopia reaching **\$41.88 million** in 2024.

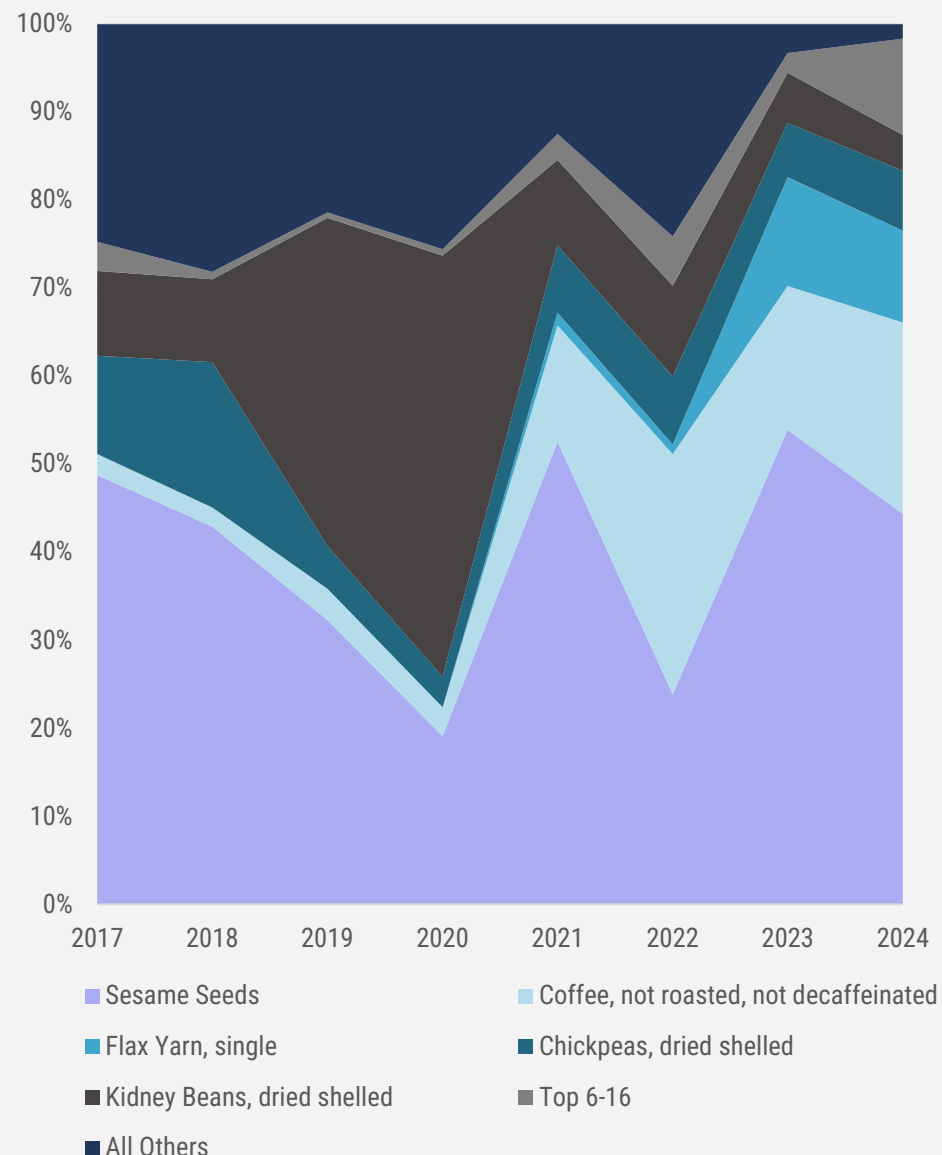

This group is dominated by the following categories:

- **Oil Seeds: Amounting to \$19.73 million in 2024, accounting for 46.35% of Turkey's imports from Ethiopia:**
 - Sesame seeds
 - Vegetable seeds for sowing
 - Oil seeds and oleaginous fruits, whether or not broken, others
- **Textile Production Materials: Exceeding \$6.26 million in 2024, representing 14.71% of Turkey's imports from Ethiopia:**
 - Flax yarn, single
 - Cotton, not carded or combed
 - Knitted or crocheted fabrics of a width exceeding 30 cm (12 inches), containing by weight 5% or more of elastomeric yarn but w/o ribber thread
- **Beans: These products accounted for \$5.05 million, representing 11.87% of total imports:**
 - Chickpeas (garbanzos), dried shelled
 - Kidney beans, including white pea beans, dried shelled, including seed
 - Small red (adzuki) beans, dried shelled, including seed
- Other Product Categories worth **\$10.83 million** accounting for **25.44%** of total Turkey's imports from Ethiopia and including: **Coffee, Soybean Oilcake, Plastics, Aluminum Articles.**

Dynamics of Changes in the Structure of Turkey's Imports from Ethiopia

Sesame Seeds	\$18.88 M	44.36%
Imports Value in 2024	Share in total imports in 2024	
Coffee, not roasted, not decaffeinated	\$9.26 M	21.76%

Flax Yarn, single	\$4.44 M	10.43%
Imports Value in 2024	Share in total imports in 2024	
Chickpeas, dried shelled	\$2.89 M	6.80%
Imports Value in 2024	Share in total imports in 2024	
Kidney Beans, dried shelled	\$1.74 M	4.08%
Imports Value in 2024	Share in total imports in 2024	

Top-5 Product Categories by Value in the Structure of Turkey's Imports from Ethiopia (\$)

- Between 2017 and 2024 the share of the top-5 import categories in Turkey's imports from Ethiopia increased steadily from 72% in 2017 to 87% in 2024, **highlighting a growing concentration in key import positions.**
- Throughout most of this period, the category – **Sesame seeds** consistently held the leading position in the import structure, with the exception of 2020 and 2022.
- In 2020, **dried shelled kidney beans** temporarily became the top import category, while in 2022, the leading position was held by **unroasted, non-decaffeinated coffee**.
- Since 2021, the category – **Coffee (not roasted, not decaffeinated)** – emerged as the second largest import position, – excluding 2022 – reaching an import value of \$9.26 million – more than two times higher than the import value of **Flax yarn, single**, which ranked third at \$4.44 million.
- The further analysis covers the import value dynamics of the 5 fastest growing and 5 most decreasing import positions, providing insights into shifting trade patterns and the evolving composition of Turkey's import structure from Ethiopia.

Most Growing and Declining Positions among Traded Goods until 2024

Among the top-16 product positions, the category of **Vegetable seeds for sowing** has shown a significant increase in imports values across all the periods considered (in 2024 and 2017 – 2024).

Out of the positions of this group, **Oil seeds and oleaginous fruits (whether or not broken, others)** has demonstrated a notable decline in imports values across all the periods considered (in 2024 and 2017 – 2024).

Goods with highest short-term growth of imports in 2024
