TABLE OF CONTENTS

FOUNDERS' UPDATE

The final quarter of 2023 was marked by the astounding success of the YGG Web3 Games Summit (W3GS) in Manila, Philippines, the epicenter of web3 gaming. Concluding a fruitful year focused on product development, the summit set the tone for the industry moving into 2024. It was a great opportunity to align with each other in anticipation of new game releases this year amid improving market sentiment. This update is being released in February to ensure an accurate reflection of this increase in industry activity.

For the success of the event, we thank our sponsors, ecosystem partners, and global guild network. We express gratitude not only for the accomplishment we have achieved together with W3GS, but also for how you have built alongside us through the Crypto Winter so we could finish the year strong as one community.

The team is eager to keep driving the momentum behind Superquests for Axie Infinity as well as the Guild Advancement Program (GAP) throughout 2024. Superquests is already seeing positive developments, transitioning to become the official in-game training partner for Axie Infinity: Origins. Meanwhile, the introduction of group and meta quests in GAP Season 4 created more rewarding experiences for YGG players. GAP quests in Pixels saw 5,000 total quest sign-ups, while other top games in the YGG ecosystem such as Big Time, Star Atlas and My Pet Hooligan have continued to see increased activity and engagement through the GAP as they roll out new releases.

2024 has got off to a flying start, and we expect this to carry forward as big themes dominate the year, like the next evolution of guilds, user acquisition through questing, and the growth of grassroots web3 esports communities. Once again, our deepest thanks to all our partners and community members. These will be some exciting times ahead as we continue to shape the future of web3 gaming.

#TogetherWePlay,

Gabby, Beryl and Owl

YGG LEADERSHIP TEAM

The YGG core team of 48 supports the smooth operation of YGG and its network, which includes seven esports players and countless more community members.

Gabby Dizon Co-founder	**Beryl Li** Co-founder	**Owl of Moistness** Co-founder	**Angel Pui** Global Head of Growth
Andy Chou Head of Ecosystem Development	**Y.G. Sun** Head of Product	**Nam Le** Head of Software Development	**Kazuo** Head of Asset Management
Kurt Watkins Head of Legal	**Mark Tan** Head of Community	**Mike Ovecka** Head of Esports	

YGG Leadership Update

The YGG team remains focused on advancing product strategy, with the overarching vision of enhancing the community's access to opportunities through their on-chain reputation. YGG's core products, the Guild Advancement Program (GAP) and Superquests, saw positive results in Q4, and the team is moving to scale both questing platforms this 2024.

Spearheaded by YGG's Global Head of Growth, Angel Pui, the Superquests initiative transitioned to become the official in-game training partner of Axie Infinity: Origins. This year, Superquests is poised for expansion in more games as YGG continues to double down on questing as a model for user acquisition and retention in web3.

GAP Season 4 saw huge growth in sign-ups and quest enrollments compared to the previous season. At the YGG Web3 Games Summit (W3GS), Head of Community Mark Tan emphasized YGG's commitment to community-driven development, urging increased collaboration for GAP Season 5 as it centers on group questing, guild allegiances, and partner-sponsored quests to enhance engagement. The success achieved by Superquests and the GAP has set the stage for the full roll-out of YGG's Reputation and Progression (RAP) system, which is set to become a foundation for web3 identity as the rest of 2024 unfolds.

To continue the momentum gained in Q4 and drive YGG's product ecosystem further, YGG is thrilled to announce the addition of Y.G. Sun to the leadership team as Head of Product. With over a decade of experience in the gaming industry, Y.G. brings a wealth of knowledge and expertise in product development and growth. His insights and vision align seamlessly with YGG's goals, and YGG is confident that his input will help fuel an even bigger year for quests.

PRODUCT UPDATE

Superquests

YGG's first Superquests campaign in Axie Infinity: Origins attracted 4,322 participants, more than double the initial goal. Bringing in YGG GAP Ambassador Kookoo and YGG Elite player spamandrice to guide questers through step-by-step tutorials, the campaign successfully introduced Origins to new players and re-engaged fans of the original Axie Classic. Another Superquest with spamandrice is now taking players deep into Origins Season 7. As of January 2024, a total of 50,000 unique players have participated in Axie Infinity: Origins Superquests.

Additionally, last November at W3GS, YGG's Global Head of Growth, Angel Pui, announced Superquests as the official in-game training partner for Origins. YGG plans to further expand Superquests by integrating more blockchains, creating educational content for new games, and co-designing quests for an enhanced player experience. As part of YGG's mission of empowerment, Superquests enables members to build their on-chain reputation through soulbound NFT achievements. The Axie Superquests campaign is a demonstration of how quests can be a tool for user acquisition and retention, and YGG's innovative approach to growing the web3 ecosystem.

GAP and RAP

YGG concluded Guild Advancement Program (GAP) Season 4 on November 8, 2023, and saw impressive growth from the previous season, with 6,184 YGG account sign-ups (147% increase) and 33,681 quest enrollments (243% increase).

It also included integrations like featured quests, expansion of guild leadership, community-owned media through content quests, and decentralized quest creation. The GAP leaderboard transitioned to a reputation-based system measured in XP, laying the groundwork for the full-scale implementation of YGG's Reputation and Progression (RAP).

Mark Tan, Head of Community, highlighted Season 4's success in his keynote speech at W3GS, highlighting increased collaboration from YGG's ecosystem partners for GAP Season 5.

In January, YGG also announced it signed an MoU to introduce its questing systems to Iskra, a web3 gaming hub and launchpad with over 4 million registered wallets and 100,000 monthly active users (MAU). The collaboration between Iskra and YGG aims to expand the web3 gaming ecosystem by creating engaging quests that deliver rewarding experiences within Iskra-partnered games.

YGG WEB3 GAMES SUMMIT

Supported by sponsors like HyperPlay, Aura, Landverse, Parallel, Pixelmon, Mighty Action Heroes and PROJECT XENO, the YGG Web3 Games Summit (W3GS) defied Crypto Winter in Manila on November 18-25, 2023.

W3GS attracted over 5,300 participants, including gamers, developers, investors, educators and government. The summit included a 24-hour Game Jam, a two-day conference featuring 90 international speakers, and a three-day expo that concluded with the XENO PRO TOUR 2023 tournament.

CONFERENCE

YGG co-founder Gabby Dizon revealed the five themes that will define web3 gaming in 2024 in a fireside chat with Emfarsis Director, Leah Callon-Butler. Other YGG core team members who spoke on stage include Angel Pui, Mark Tan and Andy Chou.

Jihoz Zirlin of Sky Mavis announced the return of Axie Classic, the exponential rise of Pixels on Ronin, and the Philippines' role as the "beating heart of web3 gaming." In a unique keynote, Animoca Brands Executive Chairman Yat Siu answered children's questions about the Metaverse.

LiquidX co-founder Giulio Xiloyannis spoke about steering the web3 IP Pixelmon from controversy to acclaim. Philippine basketball player Jared Dillinger of Daredevil Media shared his thoughts on building an online presence to drive web3 adoption.

WEB3 GAME JAM

The Web3 Game Jam was a successful collaboration among YGG, W3GG, OP Games, STI College Global City, and Globe. Participants created games and applications, evaluated by a judging panel consisting of Gala Games' Jeff Espejo, Clique's Jaden Yan, and BreederDAO's Renz Chong.

Team 10k Magic won the 24-hour hackathon's PHP 50,000 prize, with an additional PHP 50,000 from Globe Telecom, totaling US$3,600.

The three-day W3GS expo showcased over 40 web3 games, including Ragnarok Landverse, Axie Infinity and Parallel. Through demos and other fun activities at the game booths, attendees had the opportunity to experience firsthand the immersive worlds of the biggest web3 games that have gone live and are playable now.

Several titles were presented on the main stage through show matches and game demos, including Parallel, Pixelmon, Riftstorm, Mighty Action Heroes, Bushi (Hyperplay), Dark Machine (Meta-X), Ragnarok Landverse, MetaCene, Xenna (Linea), Nine Chronicles M, Zed Run (Aura NFT), Brilliant Crypto, Last Expedition (GALA), Sunflower Land and Cryptopia.

TOURNAMENT

The summit also hosted XENO PRO TOUR MANILA 2023, the first-ever world championship of PROJECT XENO, Japan's premier web3 strategy game. The tournament featured a $100,000 USDT prize pool.

From 10,134 online qualifiers, Makatty [H.U.G.] emerged victorious, securing $40,000 USDT, while runner-up RYO earned $20,000 USDT. The event's surprise guest, boxing icon and PROJECT XENO ambassador, Manny Pacquiao, presented the awards to the finalists.

WOMEN'S FORUM

During the week, various side events took place after hours, including the Women's Forum, which was co-hosted by YGG Pilipinas and Emfarsis. The forum featured speakers including Angel Pui of YGG, Mench Dizon of YGG Pilipinas, Irene Umar of W3GG, Lisa JY Tan of Economics Design, Laura Nguyen of Ava Labs, and April Agregado, mother of NFT artist Sevi Loves Art.

YGG COMMUNITY

YGG Esports Update

YGG Elite dominated the Axie Infinity leaderboards in Q4 as spamandrice garnered 2,200 AXS and achieved Rank 1 across all competitive Eras in Season 6 while creating content along the way. Kousei and Enrico also scored notable wins, placing Rank 6 and Rank 8 respectively.

YGG also continued to build on its vision for the growth of web3 esports this quarter, opening its doors at W3GS to invite competitive players of PROJECT XENO to participate in its world championship, XENO PRO TOUR MANILA 2023.

Other plans for web3 esports include boosting support for grassroots initiatives, such as the introduction of smaller regular tournaments in the YGG Discord to get ahead of the influx of players expected in the next bull run.

Sequinox Joins YGG Elite

Sequinox, a seasoned veteran of trading card games (TCGs) known for representing Singapore at the Hearthstone tournament during BlizzCon 2018, officially joined YGG Elite in December. With a remarkable track record, Sequinox now contributes his wealth of experience to both Axie Infinity and Parallel fronts, further strengthening YGG Elite's already formidable roster.

YGG, known for nurturing esports talents, has previously guided champions like Disi, the esteemed captain of YGG Elite, and Axie sensation spamandrice, who joined in Q1 2023. The addition of Sequinox to the team underscores YGG's unwavering commitment to excellence in the world of competitive web3 gaming.

Global YGG Network Highlights

8 REGIONAL GUILD PARTNERS

~3 MILLION COMBINED ONLINE REACH AS OF FEBRUARY 2024

NYXL — United States
OLA GG — Latin America
KRATOS — Brazil
AMG DAO — Eastern Europe
KRATOS — KSA
KRATOS — India
SKYGG — South Korea
YGG JAPAN — Japan
W3GG — Southeast Asia
YGG PILIPINAS — Philippines

As of February 2024, YGG and its network of guild partners have an online reach of 3 million.

OLA GG hosted their Tournament Season 3 from October 10 to November 19, 2023. It featured 90 tournaments with 2,274 participants and a US$5,000 prize pool. New features included tournament rankings and gasless on-chain credentials (SBTs) for winners. OLA GG also participated in events like Venezuela Game Show and GAMERGY Madrid.

YGG Japan revamped its marketing for the entire entertainment industry, including web3 games, and established SHAKE Entertainment Inc. to manage operations. Additionally, they implemented a token generation event for the YGG Japan token.

The W3GG platform introduced several new features such as a user dashboard as it hit 41,038 registered users. Marketing engagements, including projects like FIBA Memento, Zed Run and MetaCene, are driving revenue. Rentals for Big Time assets are ongoing. The team continues to actively participate in events like the YGG Web3 Games Summit (W3GS), NFT Taipei and Thailand Blockchain Week.

The global community of Kratos Studios (formerly IndiGG) has grown to 1.6 million on platforms like Indi.GG, Kratos.Global, Discord and X, up from 780,000 in August, with 1.1 million being IndiGG wallet holders with a key focus on India, Saudi Arabia and Brazil. In Q4 2023, 185,000 users were active on the Kratos questing platform.

GAMING UPDATES

With the community bringing a surge of engagement into several games this quarter, YGG acquired the following assets to support even more in-game activity moving forward.

7 Pixel Land Plots (inc. rare plot)

The farming MMO Pixels has notably been a [popular choice among GAP questers](#) in Q4. To boost its support for the game, YGG has secured PIXEL tokens worth US$6 million and acquired one of the largest and rarest lands in Pixels for 6 ETH. The land is now being fully utilized by the community.

67 Overworld Incarna NFTs

The YGG community has also expressed their excitement for the cross-platform multiplayer RPG, Overworld. YGG has acquired 67 Incarna NFTs valued at US$200,000, driving increased activity in the game and becoming the 11th largest holder of the in-game asset as of February 2024.

Sanko GameCorp Token Position

The Sanko GameCorp value proposition was simple: a group of determined builders who have a community of passionate gamers deeply engaged in their quality products.

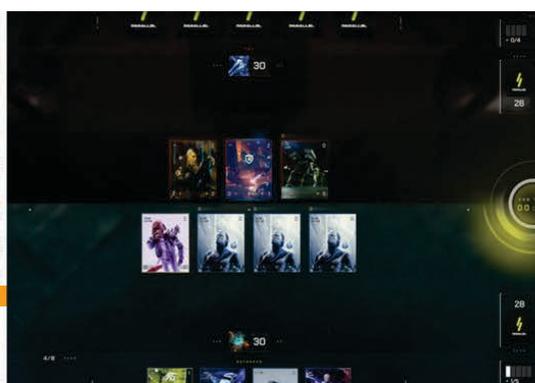

Sipher Token Position

With Sipher, the decision to double down on YGG's seed round position via the secondary market was based on the excellent quality of the latest build of the game they released.

As each quarter progresses, YGG game partners share updates on launching playable games, expanding their gaming assets, and introducing more governance options for token holders.

FINANCIAL UPDATE

YGG has established 101 partnerships since inception at a total cost of US$33.29 million, with 69% of the partnerships being focused on web3 gaming assets and tokens. YGG's total partnerships across games, guilds and infrastructure to support the adoption of web3 gaming were valued at US$50.41 million as of February 20, 2024.

The rise in high-quality, playable games being deployed by YGG partners over the last six months has seen a surge of interest from the community. Much of this activity has coincided with wider market demand for the assets that YGG was able to secure in the months and years prior.

Besides its assets in Pixels and Overworld, YGG has acquisitions in Parallel worth US$1 million, across the PRIME token and Parallel Avatars. Additionally, in the last three months, rentals in Big Time have generated ~US$186k USDC at an average of ~US$62k monthly.

As a validator, YGG has generated ~US$500k in the first three weeks of February. It is one of the top 15 validators for the Ronin network, with assets valued at US$12 million.

The pipeline of product releases and launches across YGG's partners is looking very positive for the YGG community. The strategy in the short to medium term is to continue partnering with projects where YGG can take a meaningful position and engage a highly competitive collective of players through all of YGG's programs, such as Superquests and GAP, to bootstrap adoption for these projects.
