

**Unit comes patient ready and includes:**

### **FEATURES:**

- Code Readiness Testing System
- History of readiness logs for the Joint Commission
- Readiness check includes defib, pacing, and ECG modules; AC power; battery; 30-joule shock test;
- Customizable dashboard
- Rectilinear Biphasic Technology
- OneStep 3-Lead ECG Cable with AHA Color-Coded Lead Wires
- Advisory Defibrillation
- Built-In Test, Compact Flash, and USB Port
- Integrated A/C Power (120VAC/60 Hz)
- 5.8 Ah Lithium-Ion Battery compatible

The ZOLL R Series is not just known as being a defibrillator it offers 3-lead ECG, pacing, end-tide Co2, Non-invasive Blood Pressure (NIBP), and SpO2 Monitoring. With wireless connectivity, the R Series defibrillator can give health providers a quick overall snapshot of the patients' health via a pc or mobile device. With a color display screen, you can view the CPR dashboard which can show depth, rate, and visual indicator of compression releases. The R Series BLS show non-trained responders a simple, one-button AED interface. When a trained person arrives, they can press a button to turn the BLS device into a functioning manual defibrillator. SpO2 can be pressed, once installed, which will show a pacing function. This device is great for hospitals on a tight budget, and even more so for low-acuity areas.

- A/C Power cord
- NIBP cuff w/ hose
- SpO2 Sensor w/ adapter
- Patient cable w/ leads

- Battery
- Handsfree cable
