

ZOLL

X SERIES

Unit comes patient ready and includes:

FEATURES:

- See-Thru CPR® technology to identify the underlying heart rhythm during cardiopulmonary resuscitation (CPR) to reduce pauses in compressions.
- 12-Lead ECG with Split-Screen View allowing the latest and previous traces to be seen simultaneously
- Open 12-lead capabilities by interfacing all leading ECG management and STEMI systems to reduce door-to-balloon time
- SurePower II Rechargeable Battery providing six hours of continuous run time
- Open communication with integrated WiFi for simplifying transmission and charting
- High-contrast color screen displaying up to four waveforms and can be equipped with a complete selection of parameters such as Masimo®, Rainboe® SET pulse CO-oximetry, Microstream®, etCO2, and -Welch Allyn NIBP, with three invasive pressure and two temperature channels.
- Advanced features including capnography, pulse oximetry, three invasive pressure options, two temperature channels, and non-invasive blood pressure monitoring

The Zoll X Series is a portable defibrillator that combines defibrillation with advanced monitoring capabilities to offer monitoring of ECG, CO-Oximetry, NIBP, IBP, CO2, temperature, and respiration. The Zoll X is ideal as a transport defibrillator for critically ill patients and can be used in situations that include trauma, cardiac arrest, respiratory distress, pediatrics issue, and many other conditions.

- A/C Power cord
- NIBP cuff w/ hose
- SpO2 Sensor w/ adapter
- Patient cable w/ leads

- Battery
- Handsfree cable
