THE FUTURE OF DIGITAL AGRICULTURE: PROCESS FOR PROGRESS

Reflecting and building on WSIS 20 years’ journey

Máximo Torero

Chief Economist, FAO

Mr. Máximo Torero Cullen is the Chief Economist of the Food and Agriculture Organization (FAO). He joined the Organization in January 2019 as Assistant Director-General for the Economic and Social Development Department.

Prior to joining FAO, he was the World Bank Group Executive Director for Argentina, Bolivia, Chile Paraguay, Peru and Uruguay since November 2016 and before the Bank Mr. Torero led the Division of the Markets, Trade, and Institutions at the International Food Policy Research Institute (IFPRI).

His major research work lies mostly in analyzing poverty, inequality, importance of geography and assets (private or public) in explaining poverty, and in policies oriented towards poverty alleviation based on the role played by infrastructure, institutions, and on how technological breakthroughs (or discontinuities) can improve the welfare of households and small farmers.

Mr. Torero’s experience encompasses Latin America, Sub-Saharan Africa, and Asia.

Henry van Burgsteden

Senior Innovation Officer, Office of Innovation, FAO

Mr. van Burgsteden is a national of the Netherlands with 20 years of experience in digital innovation. He has always explored new boundaries for the use of digital solutions for agrifood systems transformation and accelerating the achievement of the Sustainable Development Goals.

He firmly believes digital technologies are a powerful means of implementing agrifood systems transformation through speed and scale of uptake; reduced deployment costs; growth in public awareness; delivery of innovation, connectivity, productivity and efficiency gains across sectors.

In the framework of FAO’s work, it is about creating value and impact for achieving the FAO Strategic Framework 2022-31 and the Sustainable Development Goals (SDG) action agenda, leaving no one behind. This means special attention for the most vulnerable people; women, youth and the rural poor.

He leads the FAO Programme Priority Area on Digital Agriculture that is part of the FAO Strategic Framework 2022-31, and leads the Digital Agriculture Unit in the FAO Office of Innovation. He also acts as Lead Technical Officer of the Global Network of Digital Agriculture Innovation Hubs.

Sophie Treinen

Communication for Development Officer, Partnerships and UN Collaboration Division, FAO

Ms. Treinen has 37 years of information and communication experience in International Development, out of which 24 with the Food and Agriculture Organization of the United Nations (FAO).

Since early 2000’s, she has been mainstreaming gender in ICTs, incorporating this dimension in FAO projects and programmes, resulting in several subsequent publications for FAO and the World Bank. She has been part of WSIS since its inception and has led for several year FAO e-agriculture community of practices. Under her leadership, the Digital agriculture team was created for FAO Regional Office of Europe and Central Asia, working hand in hand with the International Telecommunications Union (ITU) for the development of e-agriculture strategies and the contest on digital excellence in agriculture. Ms Treinen also initiated the concept of twining Smart villages of Europe with FAO Digital Village initiative.

Prior to joining FAO, Ms. Treinen held positions within the European Union, the civil society and the private sector. She has a Master's degrees from the University of Louvain-La -Neuve, Belgium in social communication and development.
