Australian Made

Join us on the Australian made journey. This green and gold triangle is the mark of authenticity commanding respect and engendering trust across the country and around the world.

All Faucet Strommen tapware, showers* and bathroom accessories are Made in Australia! This includes all Pegasi, Zero, Cascade, Chisel and Zeos products.

At Faucet Strommen we are making a significant investment in manufacturing equipment and infrastructure. It is a thrill to be building for the future and to provide jobs, advanced capability and pioneering research right here in Australia.

This has never been so important! Australian Made is something special. We Australians have been creating iconic products for decades and we know the benefits of supporting our manufacturing sector and being a part of the future of our country.

Join us on the journey!

* Excludes Doccinox (made in Italy)

Boutique

Being a family owned company and having chosen a path different to most tapware brands, we bring you something different and special.

We are hands-on and passionate about what we make and do. We love to create beautiful pieces that last; it's part of our heritage. Our factory is in Kerang on the Loddon river and here we design, prototype and build all our tapware and bathroom accessories.

Faucet Strommen celebrates its 22nd birthday this year, so we've been around a while. We are gaining a place in the hearts of men and women, those who decide not to compromise on design or quality and who make decisions for the long term.

We have partnered with specialist showrooms and project merchants around Australia that share our passion and can give you the personalised service that befits our brand. Visit our website or call us to find a showroom partner near you where you can discover the complete Faucet Strommen range.

Be assured, with us you are investing in the most durable and well-engineered product available and you will find comprehensive collections in each style enabling you to create coordinated themes throughout your projects.

The Story of Design

In design, individual elements coalesce into a form. Good design is as much about those elements as it is about creating a rhyme of perfect proportion and clean, artful lines. The completed whole is a merging of function and aesthetics. Our design team discovers better ways, smarter ways to create truly beautiful pieces for your project.

At Faucet Strommen we put a premium on design. Design evolves as materials develop and functions shift. Tapware has taken on new meaning in homes, each piece creates atmosphere, adding character to the room.

To create the best, we consider who will use our products, how they use them and what they pair them with. We ensure that the piece will function perfectly, that the lines are sleek and flowing and that the product will last a long time.

Our design studio and engineering department are located right at our Kerang factory giving us the real-world connection with production and the market.

Superior Engineering

There have been great advances in recent decades in the area of manufacturing and design technology. We like to keep at the forefront of our game to ensure that we are using smart methods to take our products from concept to reality.

We have partnered with leaders in each field of expertise creating a merging of the best ideas and latest methodology. This has given us a strong edge in the industry and enabled us to leverage new materials like lead free eco™ brass and stainless steels to build superior products with increased toughness and user satisfaction.

We have aligned with the world's finest brass forging experts in the Netherlands and Italy and precision machining authorities in Europe and Australia to ensure that each part is to the highest standard and once built into a product, will outperform and last the decades it is designed for.

Precision machining using diamond tooling, fine finishing with the use of robotic polishing and superior plating ensure the best finish for beautiful shine and corrosion resistance.

We continue to research better ways to make products to increase quality, reduce waste and ultimately provide the finest and high-performance tapware in the market. We are investing in new machinery, finishing equipment and new manufacturing facilities in Kerang to bring more new technology and processes in-house over the coming months.

Caring for our Environment

Being in the countryside, one feels connected with the environment. It brings a sense of responsibility, a closer experience and an inspiration to tread lightly on our beautiful Earth.

Based in the Murray Valley we have this connection and take sustainability and environmental impact seriously. We have initiated exciting projects to reform our industry and develop creative ways to make a real difference. This is a journey.

Renewable energy for a cleaner future

We have invested in a solar power plant to create enough energy to run our entire factory. In fact, our solar cells are producing more than we need allowing us to supply green energy back into the grid.

Conserving our water resources

We incorporate smart water saving technology into our tapware to ensure that water is conserved. Pressure sensitive flow regulating devices ensure that flow is controlled for efficient use. Our unique flow-step cartridge features a tactile water saving step function.

Lean Processes to reduce waste

Part of an environmentally sustainable product is ensuring that the manufacturing process is lean, efficient and free from unnecessary waste. An extensive lean program has helped us to identify areas where processes can be streamlined and waste eliminated.

Our Projects

Every job is unique. Personality and taste are rich and varied and the way finishes and colours are applied is so creative that every project becomes an expression and provides a tapestry of inspiration. Faucet Strommen has been part of the scene in thousands of projects across Australia and around the world.

Homes

Faucet Strommen is a respected and sought-after brand with designers and homeowners. A home is a personal space, an area where design and fitment need to be individual. Faucet Strommen's products are chosen where superior quality, design and finish are not to be compromised and where they will be used, admired and appreciated for decades to come.

Apartments and Hotels

Architects and designers get involved in producing the themes for luxury apartments and hotels. Beautiful textures and quality fittings are so important in these projects and communicate the critical message to the potential buyers or visitors. Faucet Strommen is featuring prominently in these luxury projects and architects love the wide range, coordinated designs and the personal way that Faucet Strommen works to bring each project to successful completion.

Colours

In the following pages you will find an exciting array of special finishes for your Faucet Strommen products. We have embraced the trends of the interior design world allowing for greater expression of tone, texture and colour.

Explore your options and feel free to talk to us about your ideas – we would love to hear from you!

Ask for a Swatch

You will be glad to know that we can post you swatch discs free of charge so you can create your own mood board and clarify your finish choices.

It is always advisable to see a finish in real life before making your final decision for your project.

Switzrok™

Quality in Black + White

Unique to Faucet Strommen, Switzrok sets the benchmark in superior Matte black and Matte white finishes for tapware. Switzrok is an exceptionally durable finish, does not show fingerprints and has a smooth velvet finish.

Switzrok material is engineered in Switzerland and Faucet Strommen has invested in application technology to apply this finish in Australia. Switzrok is available with short lead time and has gained a remarkable following in projects over recent years.

Brasses

and Organics

Lovely warm, earthy tones in this collection work well with stone, concrete and wood in modern bathrooms and kitchens.

The brasses have no plating but rather tones of the raw brushed base metal. Antique light and medium finishes have a light wax applied over the top of the rich brown oxidised brass whilst brushed brass is raw with no wax.

All finishes on this page are organic meaning that they naturally change colour with handling, moisture and atmosphere.

Brushed Nickel

and Neutral Metals

Modern architectural designs often call for subtle neutral hues. Particularly sought after are the brushed nickel and brushed black sapphire finishes. These give the sense of a cool calm for relaxing environments.

Golds, Roses and the Classics

Here we have a selection of gold colours ranging from the subtle Brushed N18 to the rich 23 Carat gold as well as the decorative rose gold in shiny and brushed finish. Golds are delicate and need to be handled with care. Also in this collection are the traditional gloss powder coated white and Ivory finishes.

-11 Chrome A durable mirror shining finish with tough sub layers will last many years in bathrooms and kitchens.

-82 Polished Nickel Slightly warmer than Chrome, this finish is often used on musical instruments and will dull slightly with age.

-22 Gold 23 Ct This is real 23 Carat gold plating with a protective lacquer. Very rich colour and quite delicate.

-92 Gold N18 Being a more subtle shade and also tougher than 23 Ct. N18 is becoming more popular.

-97 Brushed Gold N18 This beautiful brushed satin N18 finish is becoming much sought after in modern projects.

-85 Rose Gold Brilliant and shining with a pink/rose hue and high lustrous finish. Rose gold has a lacquer finish and is quite delicate.

-86 Brushed Rose Gold This rose like finish is less brilliant than rose gold due to the brushed texture. Also delicate and lacquered.

-33 Gloss White This is a traditional tough powder coated finish with a glossy finish.

-44 Gloss Almond This is also a traditional powder coated finish for Australian tapware and often referred to as Ivory.

Organic finishes – Please note that these finishes are organic raw metal finishes. Whilst some are protected with a light layer of wax, these finishes will change over time based on the environment, handling and water splashes. This is the unique nature of these finishes and the reason that they are selected.

In-house special finishes – These quality finishes are the most sought after of our special finishes and are produced in our Kerang factory meaning we can offer fast turn-around to meet demanding timelines.

While effort has been made to represent our special finishes as accurately as possible, please note that, due to the limitations of the printing process, colours shown may vary slightly from physical samples.

-78 Switzrok Matte Black This very popular special finish is beautifully smooth and sets the benchmark in toughness.

-80 Switzrok Matte White Velvety smooth white with a deep matte texture. Tough and stylish.

-55 Brushed Chrome A brushed finish with a cool neutral tone. This is electroplated chromium applied over brushed Nickel.

-77 Brushed Nickel This very popular and durable finish has a beautiful neutral tone and will dull slightly with age.

-88 Gunmetal This is a satin/pearl look medium grey electroplated finish popular and similar to brushed black sapphire.

-93 Brushed Black Sapphire Stunning tough finish with medium grey metallic lustre and a great neutral tone.

-90 Raw Polished Brass This raw base metal is polished shiny. There may be various tones on a product and brass tarnishes over time.

-91 Raw Brushed Brass One of the most sought after organic finishes, this finish shows the tones of brasses and will patina with time.

-83 Antique Brass Medium A deep, rich chocolate brown aged brass is organic and finished with a layer of wax.

-84 Antique Brass Light This organic aged brass is raw brass antiqued, brushed back to a lighter tone and finished with wax.

-87 Raw Polished Copper This is an organic finish that changes colour dramatically from bright and reflective to a dark red brown.

Zero Progressiv

Perfect balance and proportion

01

Zero is proportioned and balanced for perfect aesthetics. The diameter of the handle is precisely the same as the flange creating a symmetry to pleasing effect.

Wave shell and surface textures

The wave shape in the outer shell reveals the indicator ring and adds subtle interest to the design. Handles come in smooth or knurled texture and our collection of sought after finishes.

Progresiv - The intuitive 1-touch action

Zero features Progresiv action. The handle simply rotates half a turn. Cold water starts and flow increases as you move the handle through the first quarter, from there to half turn the temperature increases to hot.

Logikit In-Wall body for ease and flexibility

Zero uses Faucet Strommen's Logikit system which employs an in-wall body free of decorative components allowing for fast rough in and freedom of choice. Finish colour can be chosen later as fit-off parts are supplied separately.

Kitchen Mixer

The Benchmark in performance

02

The engineers at Faucet Strommen have crafted this masterpiece for the Kitchen. The new Kitchen mixer range sets a benchmark for performance, ease of action and durability thanks to innovative Strommglide™ and S-Flex™ technology. The S-Flex™ hose comes with a lifetime replacement warranty.

Strommglide™ PTFE Runway

This innovative PTFE sleeve fits inside the brass spout providing a low friction runway for the stainless hose. This creates class leading lightness and smoothness of action for superior ergonomics at the sink.

S-Flex™ Stainless Hose

S-Flex™ is the world's toughest pull out mixer hose. Made in Germany using a double interlock stainless coil, S-Flex™ comes with a lifetime replacement warranty!

Model: 30694-78

Freestanding Floor Mixers

Fine design and robust engineering

03

Floor mounted mixers are the best option when you have a freestanding bath as they allow complete freedom of position. We produce several models of floor bath mixers and spouts to suit various styles and all colours. You will notice the petite cover plates and clean designs thanks to clever engineering.

Model: 30861-78

Model: 30807-33

Sub Floor Body

A special sub-floor body is CNC machined from solid brass and provides a base for effortless rough-in and fit off. Strong Bolts fix the body to the concrete or timber joist and create a robust mount.

Levelling & Rotation

Our Floor mixers are fitted with a Stainless steel baseplate providing 360° rotational freedom. This clever design incorporates levelling screws for accurate adjustment at fit-off. A petite ø90 x 14 cover plate fits over the baseplate for an architectural finish.

The Dual Shower

Simply the Cleanest Design

04

The brief was clear, the designers must pen a clean and elegant dual shower that is functionally superior and of supreme quality. We have used brass and stainless cased shower heads, heavy walled tube and fine components to produce the finest dual shower in the industry.

Model: 30673-78

Even flow distribution cartridge

A clever water distribution cartridge channels water evenly over the face of the shower to create a comfortable and efficient showering experience. Water exits through soft silicone nozzles to resist limescale.

Ceramic disc diverter switch

We use a fine quality ceramic disc diverter switch for easy action and long service life. The lever rotates smoothly through 90 degrees switching effortlessly between showers.

Ball bearing click action adjustment

The brass cradle for the handshower features Faucet Strommen's unique Rotaclick mechanism using spring loaded ball bearings and a dimpled stainless plate to provide positive and tactile angle adjustment that will never seize or droop.

Smooth Slide action and positive locking

The solid brass bracket slides effortlessly on the rail thanks to glide rings that are fitted into the bore. Once at the desired height the bracket is locked to the rail by means of an acetyl brake shoe.

Back Plate and Wall sets

Perfect proportions

The comprehensive collection of Pegasi and Zeos backplate mixers and two piece wall sets incorporate clever technology and innovation behind the clean exterior. Ease of installation, perfect proportions and the scope of product options and sizes makes this range a favourite in projects.

Model: 30645-78

Recessed Aerators for a minimalist appearance

Pegasi mixers feature tidy recessed aerators meaning there are no joints at the end of the tube for a clean minimalist appearance. Three spout lengths make Pegasi & Zeos versatile in projects.

Smartbridge™ in-wall breeching system

This clever breeching system designed and engineered by Faucet Strommen makes for effortless installation and perfect fit-off. This is easy to align, level and fasten and ensures that the spout and mixer bodies are correctly spaced.

2 stage flowstep water saving valve

All Faucet Strommen mixers are fitted with the legendary 2 stage water saving valve cartridge. As you lift the handle the valve slides open to a tactile step, move it past this step to achieve full flow. This clever system allows you to consciously save water every day and minimise splashing.

Sleek solid brass back plates

Machined from 3.6 mm brass plate, the rectangular backplates are perfectly proportioned and corners softened. The precise in-wall breech system means there are no unsightly extra cover rings or joints on the face.

05

Logikit™ Rough-in body

For Speed and Convenience

06

Logikit™ is a breakthrough innovation by Faucet Strommen allowing for significant reduction in project timeline and simplicity of planning. Logikit™ is a rough-in body system free of all decorative components whilst being completely operable for site testing. Logikit™ is available ex-stock from our factory for fast delivery and all decorative parts are fitted later meaning finishes do not have to be finalised before rough-in plumbing, reducing stress and complexity.

Watertight and secure

A watertight shroud creates a barrier between back of wall and external parts for easy sealing so no splash water enters the wall cavity.

Choose finishes later

With Logikit™ you have the luxury of choosing finish colours later as all decorative parts are attached at the end of the project giving you time to make the creative choice. You can easily update finishes in the future too.

Each Logikit suits a family of models

With just a handful of Logikit™ types we provide for all wall and floor mixers in our range. The tables on pages 177 and 178 shows the kit codes to suit each model.

Fast lead time to keep your project on track

Logikits™ are ex-stock from Faucet Strommen factory meaning that the rough-in stage of the installation can proceed without delay.

Pull Down Sink Mixer

A genius in the Kitchen

07

Modern kitchens are a place of action, conversation and energy. We have developed this impressive kitchen mixer with a practical pull down hose and industrial build quality giving you the tool to make things happen in your kitchen.

Industrial quality hose

We use an industrial grade hose from Europe for our Pull down mixers. This provides a good balance of flexibility and rigidity. This hose comes with a lifetime replacement warranty.

Acetyl anti-scratch nozzle

The lift out end features a clever acetyl nozzle to avoid scratching on the tap or your special dishes. This end fits snugly into the housing for a seamless appearance.

Fine tolerance brass swivel for firm smooth action

The spouts is fitted with this CNC machined brass swivel incorporating acetyl slip rings and a robust brass collar for silky smooth action.

Rock solid mounting

A brass sleeve provides even rigid mounting via a thick brass mount nut and stainless plate. Three Stainless screws make it easy to fasten in place with minimum effort.

Model: 30696-77

Solid brass bathroom accessories

In coordinated designs

08

We have developed 3 styles of exquisite bathroom accessories providing a coordinated collection across all styles in our range. This includes the classic Cascade style and the modern Pegasi & Zeos designs. We use the best brass and stainless materials to construct these and have found some innovative ways to produce the finest accessories to complement our tapware and mixer ranges.

Model: 35156-78, 35151-78

Snug fitting towel rails

The sturdy brass or stainless steel tubes on our towel rails are fitted with nylon endcaps and o-rings providing a snug fit and eliminates rattles.

Robust brass mounting system

Our bathroom accessories feature an innovative solid brass mount system ensuring rock-solid mounting that won't work loose over time.

New minimalist NF series

The new Pegasi NF uses the same dual fix system, but the plate fits inside the bracket for a minimalist appearance.

Chisel D lever series

Stately and elegant design

09

The Chisel D lever series tapware feature handles milled from forged brass. Flat topped with 4 rounded corners and softened edges these stunning handles meet the flowing round elements of the flanges and spouts to create pieces of restrained luxury.

Model: 31791-78

Smooth ceramic disc valves made in Germany

We fit all lever tapware with fine German FLÜHS® ceramic disc valves for outstanding life and smooth light action.

Concealed handle fixing

Chisel lever and cross handle taps are fixed to the valve with this clever hidden fixing system.

Spindle support gland

The unique silicon seal inside the flange holds out splash water and supports the spindle for rattle-free operation.

Doccinox Ceiling showers

Impressive showering experience

10

Doccinox showers are made in Italy from mirror polished plates of stainless steel. Sleek and opulent, these ceiling showers fit flush up to the ceiling and are available in a range of generous sizes.

Model: 30782-11

Internal Cartridge for even water distribution

Water is channelled through a unique internal cartridge providing insulation and evenly distributed flow for the best shower experience.

Silicone nozzles resist limescale build-up

Doccinox showers feature clear silicone nozzles that protrude through the stainless plate providing excellent jet direction and resistance to limescale.

Cascading waterfall effect

Several of the showers have the waterfall feature. This creates a glass-like blade of cascading water for a most impressive water feature and a spa experience at home.

Model: 30812-33

**Premium engineered stone
for strength & performance**

Silkstone is created using the unique SPS process combining natural minerals and resins. This forms a monolithic engineered stone very strong and resistant to scratching.

**Monolithic stone structure
means finish can be rejuvenated.**

Because the Silkstone material is monolithic (solid) these baths can be easily cut back and re-polished with 1500 wet foam pad abrasive should you wish to rejuvenate your bath after several years.

**Smooth silky surface that is
easy to keep clean**

After casting, Silkstone baths go through polishing stage ending in a superfine 1500 creating a luxurious silky, satin finish that is easy to keep clean.

Silkstone Baths

Cast and hand polished in Estonia

11

These are the world's finest engineered stone baths and are cast and hand finished in Estonia in Northern Europe. Beautiful Nordic designs create a stunning focal point in bathing rooms and the satin finish is smooth to the touch. Silkstone baths come with a 25 year warranty.

Dual wall architecture for comfort

The unique dual wall construction means that the internal shape of the bath can be contoured for maximum comfort and the air filled cavity provides an insulating barrier keeping the bath warm for longer

**25**
YEAR

Matching Silkstone Waste

These baths are all fitted with a pure white Silkstone waste and a discreet built-in overflow for a seamless architectural finish.

Model: 30807-33

Model: 30901-78

Zero

This beautiful collection is made in Australia using the finest materials. Striking simplicity and perfect balance are the results of experienced design and respect for architecture.

Zero uses a precision ceramic progresiv valve for unrivalled ease of use and smoothness of action.

Available with smooth or knurled handles, Zero is covered by our 15 year warranty.

Prestwick project by The Simple Collective

Pegasi

Pegasi is about perfect balance and crisp clean lines. Pegasi is round and minimalist and completely free of fuss.

Pegasi is Australian Made and includes a wide range of models and options to work with almost any situation in the bathroom or kitchen. Pegasi is a key collection for architects and designers due to the fine quality, the range of finishes available and the breadth of the range.

Model: 35101-78

Zeos

Zeos is an artful merging of rounds and soft squares. Zeos is beautifully minimalistic and clean whilst brimming with character.

Zeos comprises a full range of mixers, showers and bathroom accessories. The coordinated design makes this range a favourite with designers and architects and provides a seamless look throughout the project.

Zeos is made in Australia and is available in 20 finish options. Supreme quality and new technology make this range stand out from the crowd.

Model: 35100-78

Allambie Heights project built by NSync Constructions, designed by Your Beautiful Home and photographed by Simon Whitbread Photography

Cascade

The designers have created another beautiful collection, the new and expanded Cascade range by Faucet Strommen. Cascade is about restrained elegance; we have perfected a classic style whilst maintaining clean, architectural lines and perfect proportions. Stunning mixers and showers have been added in this exciting release making Cascade an outstanding selection.

Cascade is made in Australia and is part of our heritage, taking us to our beginnings, for this was the first style that our company ever produced. The original release, containing only a small collection of cross handled tapware was the first of Faucet Strommen engineering to be seen in showrooms nearly 22 years ago.

All Cascade models are produced entirely from brass meaning there are no plastic external components, enabling us to offer all 20 colour finishes throughout the range. Even our dual shower and pull out kitchen mixers are all of brass, offering unrivalled finish quality and performance.

Model: 30562-82

30560

Model: 31775-93 and 30724-93

Chisel D

Chisel tapware features beautifully sculptured handles in either the cross or lever configuration and comes with clean and minimal disc style flanges.

Chisel is made in Australia and is a favourite with architects thanks to its clean lines and wide appeal. The D series tapware is designed to coordinate with the Pegasi range for all outlets, showers and accessories.

Model: 31791-78

Doccinox™

As if carved from a single slab of shining metal, Faucet Strommen's Doccinox™ range of polished stainless steel showers give you a new perspective, a new avenue to explore in creating the iconic bathroom. The clean, authentic shapes are mirror polished and softened to create reflective masterpieces that demand respect and admiration.

The stunning range includes wall showers and flush mounted ceiling showers. The discreet, minimalist design and generous dimensions create a perfect piece for the ultimate bathroom. Create your very own spa experience at home.

Doccinox™ Showers are crafted from bright stainless steel and contain an internal cartridge system meaning the shower water is contained in an insulated, efficient element for performance and comfort.

Silkstone

A Silkstone bath is a life investment. The tough, mineral rich Silkstone material combined with robust engineering and the renewable silky white finish make these products among the finest in the world. All Silkstone baths and basins are covered by a 25 year warranty.

This is European design and engineering at its best, simple and refined. Silkstone is characterised by clean, pure lines and sleek edges that fall away softly to a comfortable interior.

The unique dual wall design makes for a specially contoured inner shape for ultimate comfort whilst maintaining the exterior stylish designs. Silkstone baths come with discreet built-in overflow waste and are noticeably free of superfluous fittings.

25
YEAR

Product Installation

Products are supplied with detailed fitting instructions. It is important that these are followed and that installation of tapware is undertaken by a qualified plumber. We are available during normal business hours to assist with any installation enquiries, and you are welcome to call for help. Below are some important points relating to tapware and showers.

Must be fitted in accordance with AS/NZS 3500 by a qualified plumber.

Mains 500 kPa regulator must be fitted.

Maximum hot water temp. 65°C.

Mini stop taps must be fitted on hob mounted sink and basin mixers.

Water lines must be flushed prior to connection.

Only clean municipal water supply. No bore, dam or hard water without filtration & treatment.

Cleaning

Clean only with a soft microfiber or similar cloth and warm clean water. Ensure that the cloth is clean and free of any grit or chemical. Dry off with a soft clean cloth. Ensure that your product is not subject to any chemicals, building grit or any type of abrasive or polish. For care of special finishes please visit our website.

Certification

Faucet Strommen products are built to the highest standard. Models listed on the Faucet Strommen Watermark schedule comply with AS/NZS 3718 (tapware) or AS/NZS 3662 (showers). Faucet Strommen products comply with the WELS Regulation where applicable. Star and flow rating information appears beneath the product descriptions and licence numbers are available on the Faucet Strommen Website.

Warranty

Faucet Strommen warrants its products as per the periods in the table below. Please visit our website www.faucetstrommen.com.au or call us for the full Warranty document as conditions apply.

Product Category	Residential Warranty Period	Commercial Warranty Period
