

# Hélène Verbockhoven

Deputy Director at ENGIE  
Digital

With an engineering degree from École Centrale of Paris, Hélène joined the Gaz de France Group in 1995 as Research & Development Engineer, in fuel cells and small-scale cogeneration. From 2002 to 2010, she occupied various positions in global market activities, including within Gaselys as Chief Finance Officer, then as Deputy Chief Operating Officer. In 2011, she headed Energy Derivatives Sales within GDF SUEZ Trading. Finally, she led merger of global market activities in 2012/13.

Hélène joined the Information Technology and Digital line of ENGIE in 2014, being Chief Information Officer of the Global Gas and E&P division. In 2016, she endorsed advisory role to Yves Le Gélard, Chief Information Officer and Chief Digital Officer at ENGIE, and launched ENGIE Digital. In 2018, she defined ENGIE strategy for global business platforms.
