

The diagram consists of two concentric rectangles. The outer rectangle is larger and the inner rectangle is smaller, centered within the outer one. The text 'Laserable Area' is centered between the two rectangles. Two red arrows originate from the center: one points vertically upwards to the top edge of the inner rectangle, and the other points vertically downwards to the bottom edge of the inner rectangle. A horizontal red arrow also originates from the center, pointing left to the left edge and right to the right edge of the inner rectangle.
