Q34. Include a description of the challenge and suggest a possible solution.

• We support the review and ESCAS in principle as an important tool for market access, particularly to SEA. • The scope of the review should include considerations of the economic impacts on industry of any changes to the regulatory framework. • The review should consider the needs of different aspects of the trade, as there is no “one size fits all” solution for this complex trade. For example, the northern cattle short haul trade to Indonesia and other near trading partners has different requirements from the southern trade in sheep to the Middle East. • We support flexible approaches to compliance models, especially for exporters, importers and other stakeholders in the importing countries. • Any reform should have the objective of supporting efficient and cost effective market access for the NT LAE industry. • Animal welfare standards should not be any more burdensome than are currently enforced domestically. • The NTG has no issues or concerns with its current role in the LAE industry. • Our relationships with near trading partners such as Indonesia are critical to the success of the NT economy. Kind Regards [REDACTED]
