

Are you responding on behalf of an organisation?

No

What industry do you represent?

Producer

State or Territory

██████████

Are you currently an agricultural levy payer?

Yes

What commodity(ies) and levies do you currently pay?

████████████████████████████████████████

How would you like to provide your feedback?

Answer questions

What should the levy rate look like for the commodities of interest to you?

You can refer to page 5 of the consultation paper for further details.

Levy should be on person creating the risk, importers, tourists travellers etc, not the potential victim of a biosecurity incursion. Therefore our levy rate should be zero

Should any thresholds and/or exemptions should be considered?

All exports should be exempt, the importers should carry costs. In this scenario we would still pay the costs associated with inputs we import.

How should Biosecurity Protection Levy collection arrangements and mechanisms be implemented for your commodity of interest?

On the point of most risk ,ie importation

What information would be important to you to have confidence the levy is proportionate to biosecurity system benefits?

I fail to see how its equitable that primary producers are required to pay to mitigate someone else negatively impacting our industry. It should be up to everyone to not cause harm to others

Is your response confidential?

No

Do you agree to your response being published on our website?

Yes

Please de-identify my response

Yes

I have read and understood the privacy notice and consent to the collection, use and disclosure of my personal information as outlined in the privacy notice.

Yes

Confirm that you have read and understand this declaration.

Yes
