Answer questions

What information would be important to you to have confidence the levy is proportionate to biosecurity system benefits?

There needs to be producer grants provided to get property biosecurity plans and management plans in place supported by consulting specialists. There is a severe shortage of understanding of on the ground actions required to prevent and manage biosecurity issues. State local government biosecurity plans especially QLD needs to have greater consistency of plans to ensure it can be adopted by producers and better co ordination of activities.
