

**Are you responding on behalf of an organisation?**

Yes

---

**What is the name of the organisation?**

Vinehealth Australia

---

**What industry do you represent?**

Intermediary or levy collection agent

---

**State or Territory**

South Australia

---

**Are you a currently an agricultural levy payer?**

No

---

**What commodity(ies) do you currently produce?**

N/A but the Phylloxera Board of South Australia, trading as Vinehealth Australia, is a South Australian statutory authority solely focused on biosecurity which directly levies all South Australian grapegrowers with 0.5 hectares or more of vineyard (living or dead) to fund its biosecurity functions and activities as outlined in the Phylloxera and Grape Industry Act 1995.

---

**How would you like to provide your feedback?**

Answer questions

---

**Should any thresholds and/or exemptions should be considered?**

Yes - we ask that due consideration be awarded to South Australian vineyard owners who are already levied annually for a biosecurity levy (under the Phylloxera and Grape Industry Act 1995) and that these vineyard owners be exempted from the Biosecurity Protection Levy. These vineyard owners can be identified as they are required under the aforementioned Act to be registered with

Vinehealth Australia on our Register. These are vineyard owners who own land in South Australia with 0.5 hectares or more of grapevines - living or dead. There is no equivalent of Vinehealth Australia in any other state or territory.
