

Name:

Erl

Which of the following best describes your situation?

Farmer/producer

Are you responding on behalf of an organisation or industry body?

No

How would you like to respond?

a. Answer discussion paper questions via the online survey

What are the opportunities to reduce emissions and build carbon stores in agriculture and the land? What are the main barriers to action?

Disagree with your premise. Emissions is unrelated to climate risks for the agriculture and land sectors.

How can we progress emission reduction efforts whilst also building resilience and adapting to climate change?

Don't be stupid

How can the Australian Government bring together existing effort and new initiatives into one coordinated plan?

Please don't. You are wasting producers time and resources.

What are the practical solutions to increase uptake?

Go back to sleep.

A consistent and trusted approach for assessing and reporting emissions is often raised as a barrier to reducing emissions. Is there a role for the Australian Government in addressing this concern, and how can producers and land managers be supported?

No role

Do you have any additional views or feedback that you would like to include in your response?

This is a nonsense. The discussion paper is full of fluff.

Is your response confidential?

No

Do you agree to your response being published on our website?

Yes

I have read and understood the privacy notice and consent to the collection, use and disclosure of my personal information as outlined in the privacy notice.

Yes

Confirm that you have read and understand this declaration.

Yes
