

For all our sakes, especially my grandchildren,I support the live sheep export phase-out.

Caring Australians want to know for certain that this trade in live sheep export will end,that the phase-out be legislated and commences in this term of parliament. Please let this begin and end as soon as possible.

I acknowledge that farmers will need and will receive government support to help them to transition.

This will secure Australia's international reputation as a fair and compassionate nation . (New Zealand has already set a precedent in ending live export).

If Australia continues to defend the live export trade it undermines public trust in Australia's agricultural sector. Australia will be known for cruelty to animals, even if there are regulations the regulations are still there creating cruelty. Its inhuman in this enlighten age, a dreadful example to grandkids. It gives permission for cruel violence.

PLEASE PLEASE PLEASE Let Australia ban this terrible live export trade.
