

4.5.23

Hello,

I would like to see live export ended. I have seen harrowing footage and read many reports on the inhumane treatment of these innocent animals, and we must end it in 2023.

In our name we cannot in good conscience allow these peaceful creatures to be butchered overseas, away from our cruelty laws, after suffering on board ships in terrible conditions.

Please use your power for good and finish live exports.

Kind regards,

A black rectangular redaction box covering the signature.
