

To whom it may concern

I would like to voice my concerns over the live sheep export industry. I am pleased the government have committed to ceasing this inhumane practice, but I would implore that this be done immediately. The longer this process takes to be implemented, the longer sheep suffer.

It is pleasing to see the New Zealand government have led the charge in this respect and I would implore the Australian government to act with urgency.

I voted labour at the last election in the hope that this day was near. I support any assistance farmers can be given to facilitate this necessary immediate change.

The days where people don't think about farm animals are gone and we all expect more from our government in this regard.

I thank you for your urgent consideration.
