

To Whom it may Concern

The Australian government needs to act on its election promise to end the horrendous practice of exporting live sheep by sea to foreign countries. The practice has no place in a modern and progressive Australia. I am sure you are aware of New Zealand's recent decision to stop this hideous form of torture on these poor animals. The reports on the media showing the suffering these animals receive on these arduous trips is well documented. The suffering these animals receive once they reach their destination is also well documented. The Australian government and the Australian people can no longer turn away and ignore the misery these animals endure. It is time for this to stop and you must be the people to stop it. Please do not let them down! Please do not let us down!
