

END LIVE EXPORTS NOW

I believe that live sheep/animal exports are inherently cruel and I support the phase-out as soon as possible.

I believe that most Australians want certainty that this trade will end. That the phase-out be legislated and commences in **this term** of parliament. I and my fellow Australians want Legislation to begin, and to end live exports as soon as possible.

I support our farmers to receive government support to help them to transition.

I believe the impact of live export trade on Australia's international reputation as a fair and compassionate nation and we should follow the New Zealand's precedent in ending live export. I also want to make the point that defending this trade undermines public trust in Australia's agricultural sector.

I supported Labor in the last election because of this policy.

While the merits of the government's policy to end the trade are not being considered, animals during live exports suffer unnecessarily and even when all regulations are followed, sheep/animals still suffer heat stress at sea and painful un-stunned slaughter overseas.
