

I absolutely support the elimination of all live export – sheep, cattle and all other species. Animals that are transported live are subjected to unimaginable trauma, suffering and abuse. These are sentient beings who feel pain, care for their young and have exhibited various forms of awareness and intelligence. Animals deserve to be handled with respect and the dignity to which all living creatures are entitled.

We would not submit humans to this type of treatment – there would be a major outrage to doing so. Humans for far too long have subjugated other species to horrific conditions for profit. This has to stop and I am asking that that we finally do the right thing and stop live export as soon as possible.

Thank you for your attention to this matter.
