Dear Panel

PHASING OUT ALL LIVE EXPORTS IS A MUST AND WITHIN 2 YEAR PERIOD  
– JUST AS NEW ZEALAND HAS DONE.

Having watched the horrors of the most horrendous shocking cruelty caught on film shown on 7.30 Report a few years ago of the horrors our poor gentle defenceless sheep are being subjected to on these Ships of Hell, all so that some very greedy people can line their pockets with money I am absolutely and utterly appalled at this so unconscionable depraved trade and believe all these Live Exports must now be phased out immediately.

How dare they commit such atrocities just to make money. No human has any right to behave in such atrocious depraved ways. SHAME ON THEM.

The same occurred when footage was shown on 7.30 Report of the horrors our poor cattle were and are still being subjected to in Indonesian barbaric slaughter houses and the outcry by us led to the immediate banning of this exporting to Indonesia however unfortunately the farmers and exporters simply waited for a Federal Liberal Government to be elected to then put claims through the Courts and with little to no defence from the Liberal Federal Government, who was then very happy to hand out \$millions to these unethical operators instead of lodging a formal Appeal to a higher court.

This is why I am also calling for ALL of these depraved Live Exports both Sheep and Cattle etc etc to be phased out and for Australia to follow the New Zealand Government's excellent example who took 2 years to phase out ALL Live Exports from New Zealand after this was raised and voted on in the NZ Parliament.

If New Zealand did this in 2 years then Australia can and must do so as well.

I am calling for Australia to do the same. If New Zealand could accomplish the phasing out of ALL Live Exports within 2 years, which ceased at the end of April 2023 Australia can do exactly the same and not just for Sheep but also for our poor Cattle and any other species doomed to be put through such depraved atrocities just so a few greedy operators can make money. SHAME ON THEM.
